8"	25 serves
9"	31 serves
10"	39 serves
11"	47 serves

Care Instructions

- Saving the cake for another day? Keep me frozen up until the frozen best-before date.
- To defrost - Simply leave on the bench in original wrapping.
- Cakes should thaw within 1-4 hours. If you're in a hurry, remove plastic wrap & microwave in 1 min bursts.
- Once thawed, place in an airtight container away from strong odours [we're looking at you, curry powder!]
- No need to refrigerate until decorated.
