

DWG #: 9000X18000_CE_S

End Seal Bag
Single Radius
9.000" x 18.000"
Seal Into Print
Sales Type

TEMPLATE DISCLAIMER

The print area on bag templates represent the lay-flat bag, and is the maximum printable area for Cryovac specifications. It does not represent art placement for the finished product. The templates can be used for a variety of products therefore the art needs to be built to the product. The art placement has to take into consideration the distortion of the bag when the product is placed into the bag in the packaging process. A way to help with this placement/distortion is to perform a grid test using the bag and a sample of the product. All Pantone and Cryovac custom colors will be matched to a standard not represented by the colors on this template.

-  **SKIRT AREA**
-  **NON-PRINTABLE AREA**
-  **PRINTABLE AREA**
-  **DISTANCE TO SEAL**
