

DESIGN BRIEF

Please design a casual streetwear t-shirt design incorporating the logo displayed in the Main Image in some shape or form. A separate document will be attached with the logo design you can alter to your liking.

You have 100% full discretion to create absolutely anything you feel would be an amazing design. Something eye-catching and something if you say someone else wearing, you would buy for yourself.

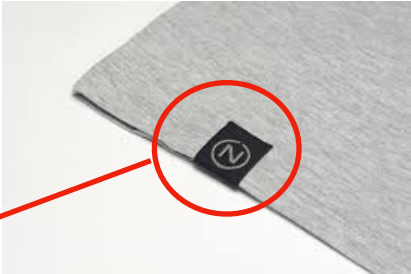

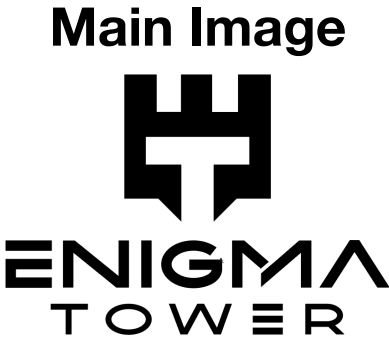

BE AS CREATIVE AS POSSIBLE

Color Palette

+ (1) MYSTERY COLOR

Please make a design using 3 color t-shirts; White, Black and (1) color of your choice that would look good with your design

I would also like to have a bottom hem tag of the logo on the bottom right of the shirt

Examples

These are examples of different styles/designs that I have found that I have found are nice looking t-shirts. BUT try to incorporate the logo in the Main Image somehow into your t-shirt designs.
