Anchor's FUNbrellas® are giant, permanent umbrellas constructed from tough aluminum and powder coated steel frames, available in a rainbow of colors with fabric options, that features solid acrylic and breathable mesh. Originally conceived for use around commercial pools where chemicals, water, and sun are abundant, FUNbrellas® are designed for long life, durability, and ease of use. The single center pole design minimizes obstruction, so people can enjoy the comfort of shade beneath the 12' or 20' diameter umbrella canopies.

- Quick turnaround time
- One 20' FUNbrella® replaces 7 smaller commercial grade umbrellas & our tops last 5 years longer than smaller, commercial grade shade umbrellas
- Rugged and durable construction
- Removable frame with optional flush mount groundsleeve
- Variety of colors and patterns capabilities
- Branding available on Classic FUNbrella*

The Skin Cancer Foundation recommends woven acrylic to help prevent skin damage and skin cancer. Winter Covers protect powder coated frame surfaces and extend the life of the frames.

The Classic FUNbrella® is retractable and easy to maintain, with a 4" diameter aluminum center pole featuring internal winch and cables, plus a standard one piece groundsleeve. Bows and braces are made of white powder steel tubing. The Classic FUNbrella® is the original and iconic giant umbrella.

Fabric Options: Woven Acrylic

*Custom branding capabilities are available on the Classic FUNbrella.

The catenary-style Shark FUNbrella® top offers a clean, contemporary appearance using the same framework as the Classic FUNbrella®. If you have the Classic FUNbrella® frame, you can switch to the Shark FUNbrella® top for a new or different look. And like our Classic FUNbrella®, the Shark FUNbrella® is easy to maintain, with a 4" diameter aluminum center pole featuring internal winch and cables, plus a standard, one piece groundsleeve. Bows and braces are made of white powder steel tubing.

Fabric Options: Woven Acrylic or UV Mesh

The Palm FUNbrella® is a non-retractable 20' permanent umbrella that's perfect for public areas such as parks, pools, schools, and other locations where meeting structural codes is a necessity. Rafters and braces are made of aluminum for long-term durability. The Palm FUNbrella® frame has a 4.75" diameter aluminum center pole that's compatible with the standard FUNbrella® groundsleeve. Palm is the perfect installation in areas prone to constant or high winds.

Fabric Options: UV Mesh

Anchor's UV Mesh Shadecloth has been specifically developed to produce a very strong and stable fabric for outdoor tension structures, including our top selling FUNbrella and PERFECTSHADE post and fabric products. Anchor UV Mesh Shadecloth offers the ultimate combination of maximum sun protection plus incredible strength and durability to help prevent skin cancer*, provide an oasis from the sun, and do so with maintenance-free, long-life performance.

Anchor's Woven Acrylic has been specifically developed to maintain strength and durability throughout the years withstanding harsh and extreme outdoor conditions. Anchor's Woven Acrylic super tight weave creates a canvas like texture and appearance to repel water, which is why it has become the #1 fabric choice for FUNbrella buyers. Anchor's woven acrylic offers maximum sun protection to help prevent skin cancer, provide an oasis from the sun, and do so with maintenance-free, long life performance.

*Warning: Do no use against flames. Contact with organic solvents, holagens or high acidic substances may reduce effectiveness and void warranty
