

- Space between consulting and the shield (similar to the one under it)
- Make "consulting smaller and thinner (similar to the one under it)
- Use the blues from the images on the right side (make the shield and all text in the darker blue from the right and globe in blue it is in currently on the right side logo)
- The font is still not quite right - see how the letters are different widths. The logo directly under the one created with black letters has a good font.

GOOD BLUES

GOOD FONT BELOW
