

Escrow Reconciliation Services

WHAT WE DO:

Escrow reconciliation services are the core of our business. Let us deliver you peace of mind. When you partner with Total Trust, you know your escrow accounting is secure, accurate and compliant with industry regulations and Best Practices.

Since every office operates differently, contact us today for an individualized rate quote for escrow account reconciliation services!

Daily two-way reconciling is a requirement for Best Practice Certification. Let us tailor a package to best your needs that ensures your compliance with Best Practice Standards.

Regardless of your accounting software system, we can access your network via a secure remote connection on the days and times most convenient to you to complete your reconciliation.

Comprehensive daily and monthly reports will be delivered securely to you, along with a clear breakdown of items that may need your attention. If you are required to submit reconciliations to underwriters, we can take care of that for you as well.

With our low, affordable rates, your company can get a big boost in efficiency with minimal investment. Your individual rate is based on the volume of activity within your accounts. Discounts are available on multiple accounts.
