

Notes

- Above example sourced from [here](#)
- The font opposite is powerpoint font. Using fonts similar to the above link from the original image is preferable.
- Try to align the text so left and right borders of text align
- Make the top and the bottom of the text align to the top and bottom of the logo image
- We are open to receiving other ideas and other colour options

Must haves

- Follow above layout please, being the logo to the left and the name to the right

Output

- Standard file formats eg jpeg, pdf, ai, eps etc
- Both the entire logo and also just the image from the logo in a format we can use on social
- Copies of entire logo and image only with translucent background
