

Branding Preview

The logo

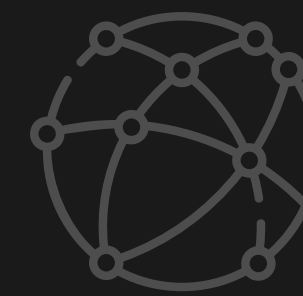

The icon integrates the starting Sinhala letter of our brand name, subtly embedded within the face of a lion. This reflects the significance of Sinhala and Tamil as the main languages used in SigiriAI.

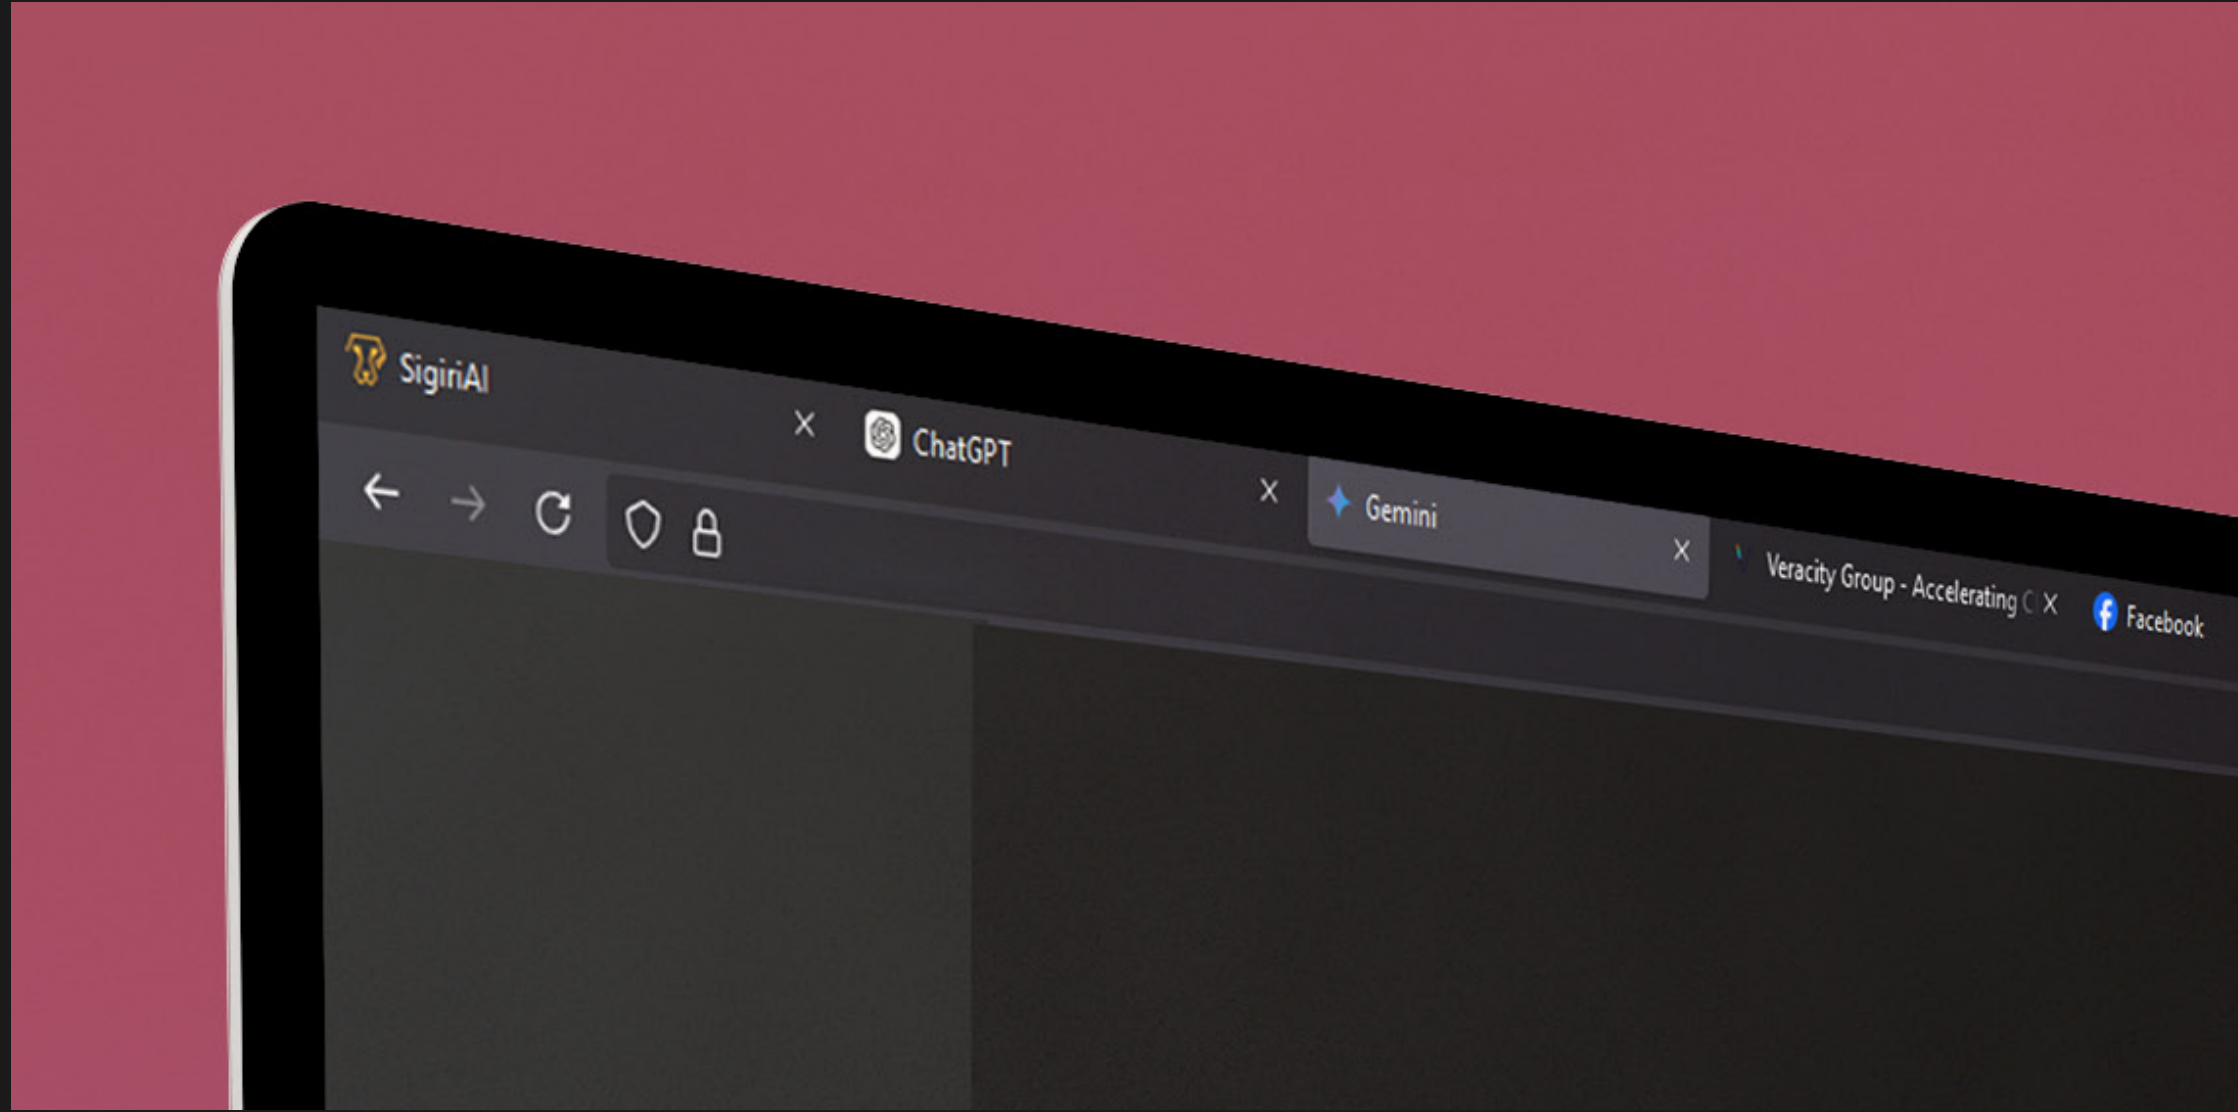

The icon also prominently features the face of a lion, symbolizing "Sigiriya," which means "lion's rock."

The colors are inspired by the Sri Lankan flag, emphasizing our commitment to a truly Sri Lankan local branding.

The interconnected letters symbolize the seamless connectivity and the strong link between you and the AI.

Colours

The colors are inspired by the Sri Lankan flag, emphasizing our commitment to a truly Sri Lankan local branding.

Typography

MuseoModerno (Headings)

MuseoModerno is selected for its futuristic appearance, featuring curves that resonate with Sinhala and Tamil characters. Additionally, it offers numerous alternative characters for creative stylization.

Space Mono (Body Text)

Space Mono is chosen for body text due to its readability in long paragraphs. As a monospace font, it reinforces the themes of digital innovation and technology.

Pattern

A hexagonal pattern can be incorporated to complement the logo icon's partial hexagon. This adds visual interest to areas that might otherwise appear plain and empty. Ensure the pattern is subtle and harmonizes with the background colors, avoiding high contrast for a more seamless integration.
