TESTIMONIALS

Our client's feedback

We purchased our new home which was outfitted with beautiful lighting fixtures provided by Signature Lighting here in Calgary- After the first year in our home, I had to finally change the light bulb in our kitchen track light and broke the glass- after a quick call to Signature Lighting, they helped find my make and model to replace it, as well as get a few extra ones. It was so easy to work with them. Then, when a different track light had an issue (probably due to me repositioning the lights), Signature kindly sent us support to have it repaired, treating us like family. We won't be looking at any different companies for our Lighting needs - you can buy lower priced fixtures but you can't buy the quality or the ease of mind that Signature Lighting provides..

L M Shelton

I worked with Shelly at Signature and she was not only extremely helpful but incredibly knowledgeable on their products as well. This was my first time buying any sort of lighting for a new house and she offered great perspective on lighting options that I wouldn't have considered if left to my own devices.

Shelly was great at listening to what type of style I liked and pointing me in a direction that captured my vision and also made the space flow.

Rachel Janz

You guys are a 10 out of 5 all day!! Building a home is really stressful specially when covid is rampant and things don't go your way.

Stacey... please accept my heartiest appreciation for everything you have done for me. You have made this so easy and effortless that I forget that we haven't even met yet.

You have responded to all my calls and emails in such a timely manner that I feel like you were dedicated and empathetic towards my needs and wants...

You are one of the few people that truly know what customer service is. Thank you for everything!

Signature lighting, this is my second venture with you and its always been amazing and pleasant. Sending people multiple times to fix something with a smile is all anyone can ask for in todays world. Thank you for everything and having great employees like Stacey and Brandy as well!

Thank you thank you thank you..

Jasper Maneksha

ABOUT US

We would like to take this opportunity to re-introduce you to Signature Lighting and Fans. Viewed by many as Calgary's number 1 choice for Lighting supplier, we are very proud of where we have come from and are confident in the direction we are heading.

Signature Lighting has been serving Calgary and area for 31 years. We are the first and only Retail Lighting supplier to operate a full service and installation department led by a Master Electrician. This department includes 3-4 Journeymen electricians at any given time allowing us to participate in the Electrical apprenticeship program. In summary, we have only electrical qualified individuals working on your job site.

With our recent Renovation, Signature Lighting offers 25,000 sq/ft. of Retail showroom. Our impressive showroom is always on Trend and displays over 1900 items. Homeowners have endless choice! Our knowledgeable Builder sales staff has many years of experience ranging from 5 to 30 years each. We are very proud of the depth of our sales team and all of the training that they have received.

Under our company umbrella is Whitfield Lighting. Through Whitfield Lighting, we manufacture lighting offshore. This gives us the advantage to control our product offering and pricing to suit the individual builder. With manufacture direct pricing we will not be beat. Also, gone are the days of the basic builder lighting package. We can customize to your specific clientele base.

In 2020 we completed a massive renovation to our offsite warehouse. With a 20,000 sq/ft. foot print, and 30' vertical racking, we can now warehouse up to 6 months of inventory for each builder to minimize the risk of back orders for your selected Lighting packages. We are very proud to say that we have experienced very few supply-chain issues on standard product throughout this past 2 years.

We know that we stand out from our competitors and welcome the opportunity to stand behind our claim.

Signature Lighting has looked to the future and have positioned ourselves for growth. We ask that you consider allowing us to grow with you!

INSTALLATION SCOPE OF WORK

- Removal of keyless porcelain fixtures previously installed
- All necessary light bulbs are supplied as per selections
- All fixtures and surrounding area are to be cleaned of smudges and fingerprints.
- All fixtures are left tight to the ceiling, plumb and straight
- All ceiling fans are balanced (in both directions), quiet and secured properly
- All hanging fixtures are installed to proper elevations from the floor.
- 1 year in home warranty for all fixtures installed by Signature Lighting & Fans

The scope of work includes supply and install of all interior and exterior lights, with the exception of the following: puck Lights, recessed pot lights, under cabinet lights, lights in undeveloped areas and interior garage lights.

INSTALLATION PROGRAM

We are often asked “What are the benefits of the Installation Program., and how do we know it works?”

Signature Lighting and Fans Installation Program provides a “No Hassle”, one stop shop experience. Our educated and well-trained sales staff document all pertinent installation instructions as discussed with your customers. This information is transferred to our installation department to ensure accurate installation of the fixtures. This would include fixture hanging heights, ceiling fan blade colors and possible fixture designations to name just a few. Fixtures are installed, tested and deficiency free. In the event of a deficiency, the replacement process has begun prior to your construction staff or customer being aware of it and prior to possession.

Below are some of the common complaints from builders who do not subscribe to our program:

- Broken Fixture... Was it shipped broken or did the electrician break it? – Service Call
- Missing Pieces... Were the pieces actually missing or thrown away? – Service Call
- Lighting installed incorrectly.... Inexperienced installer, no information? – Service Call
- Ceiling fan not installed... Parts missing or Lazy installer? – Service Call
- Missing Fixtures... Not shipped or stolen from job site? – Service Call
- Scratched flooring due to ladders/tools... Don't care attitude? – Service Call
- The list goes on...
