# ESCROW ACCOUNTING SERVICES

## WHAT WE DO

Escrow accounting services are at the heart of what we do. Trust us to provide you with peace of mind. With Aligned Escrow Solutions, you can be confident that your escrow accounting will be secure, accurate, and in complete compliance with Underwriter Requirements and Best Practices.

**Because every office has its own needs, contact us today to receive a customized rate quote for escrow reconciliation services.**

Daily two-way reconciliation is a Best Practice Standard. Let us create a customized package that ensures your compliance and protects your reporting from audit deficiencies.

Comprehensive daily and monthly reports will be delivered securely using ShareFile. These reports will include a detailed breakdown of items that may require your attention. We also manage the submission of reconciliations to underwriters.

We perform reconciliations across all accounting software systems using secure protocols aligning with ALTA Best Practice - Pillar 3 standards.

Our affordable rates allow your company to significantly enhance efficiency with minimal investment and focus on what matters. Pricing is based on account activity volume, and we offer discounts for multiple accounts.
