

Get in the Right Bubble with **bubble rite**

BubbleRite is a bubble wrap cushioning made from a co-extruded blend of both polyethylene and nylon barrier film for superior air retention and strength.

Available in Two Grades

Standard Grade:

Light to medium duty applications stocked in both green and clear

Superior Grade:

Medium to heavy applications that is stocked in clear but high volume runs can be produced in green.

SUPERIOR QUALITY - Features, Advantages & Benefits

MANUFACTURING PROCESS

10 layers of film, 5 on each side for amazing strength

NYLON BARRIER

Two interior layers of nylon reinforcement film prevent air leakage 30% to 85% over non-barrier bubble

CONSISTENT FILM THICKNESS

Constant protection throughout each roll

CONSUMER APPEAL

Participants chose BubbleRite over competitive products 55 of 60 times in a blind test

RECYCLED CONTENT

Produced with up to 25% recycled content in every roll
