

The National Athletic Trainers Association owns the "AT" symbol and with permission, allows state associations to utilize it in their association logs. In fact, they prefer that associations utilize the symbol for a more consistent industry brand. The CATA would like to use the symbol in their logo. We would like a simple logo that incorporates the "C" from the state flag of Colorado and proprietary "AT" symbol that is owned by our national organization. Other elements such as a Colorado State outline, mountains etc may added at the designer's discretion. The official Colorado colors are blue, white, red, yellow and gold but we are not married to that palate and would welcome artistic interpretations.

Below is the link to the "AT" logo and more information:
