HIGHLIGHTS

[VIEW DETAILS](#)

This former sheep farm lives in harmony with the nature around it. Floor-to-ceiling windows frame the mountains outside, driftwood and stone from the Fljótaá River cover the rooms, while an outdoor geothermal-heated pool flows directly into an expansive bathhouse. Unwind in our 5,000-square-foot spa featuring a Viking Sauna, cold plunge, and treatment rooms. A place this wild deserves its own soundtrack, which is why you'll find music everywhere, from our curated LP listening space to our world-class recording studio.
