

FRONT CORRECTIONS

- "Delete 'Run with it...!'—just keep it on the back.
- Make 'RUNNING BULL' bigger.
- Delete the logo in the background. Instead, the white bull should be larger. This is an example: (Do your magic! 😊)
The idea is to have the bull covering half of the can as you turn it.

BACK CORRECTIONS

- The idea is to have a little bit of the bull visible in the back.
- Keep the main logo simple, without surrounding lines.
- Delete 'RUNNING SANGRIA.'
- Improve the alignment of the history text so that no single words, like 'guest,' are left alone.
- We love the background design of the can, so keep the exact same colors and wine-water motion effect.
