NovaCompli AI Governance and Responsible AI Service Catalogue

February 2025

NovaCompli AI Governance and Responsible AI Service Catalogue

At NovaCompli, we bridge the gap between **innovation** and **responsibility**. Our expert-driven, tailored solutions help your organisation harness AI's full potential without compromising on **ethics, security or compliance**.

Let's work together to build AI that is as responsible as it is revolutionary.

AI Governance Advisory and Implementation

Unlock AI's Potential with Confidence

Secure and Responsible AI Development and Deployment

Build AI with Integrity and Security

AI Training, Awareness, and Strategic Planning

Empower Your Team for AI Success

AI Governance Advisory and Implementation

Navigate the complex world of AI governance with our expert guidance.

We provide comprehensive advisory and implementation services to help you establish a robust and ethical AI governance framework tailored to your organisation's specific needs and objectives.

We'll work closely with you to understand your AI landscape, assess your current state, and develop a clear roadmap for implementing a best-practice AI governance framework aligned with leading standards like ISO 42001 and Microsoft's Responsible AI principles.

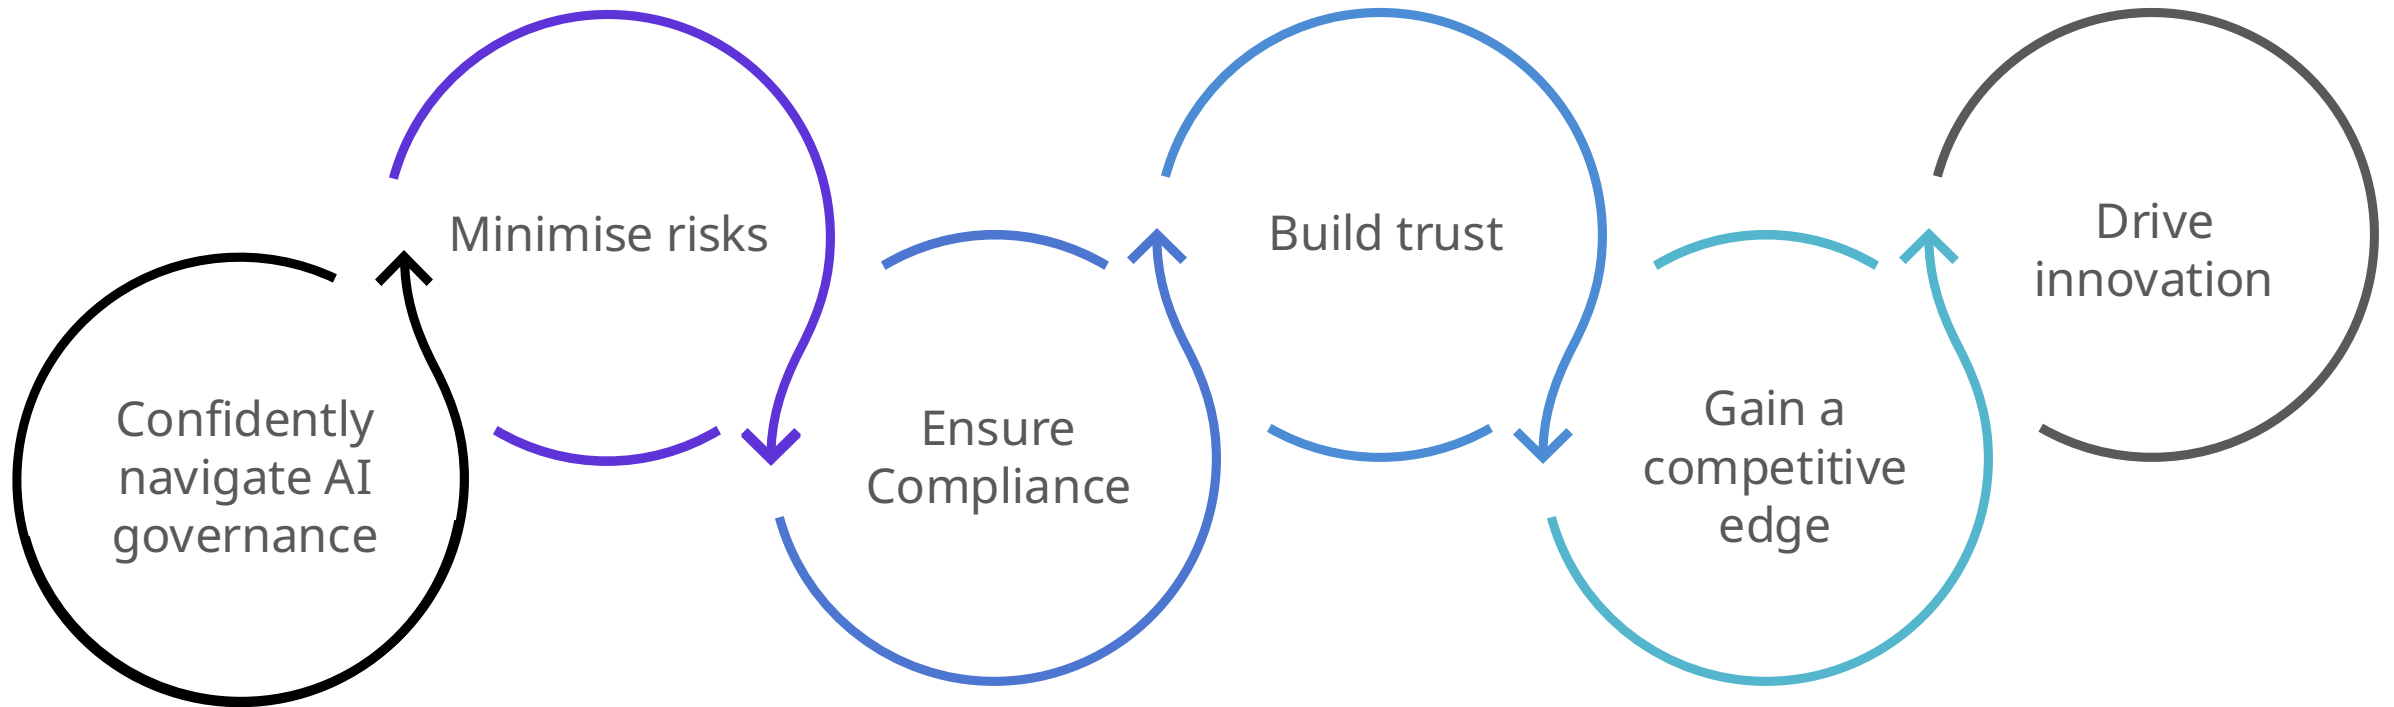

Key Features of AI Governance Advisory and Implementation

Benefits of AI Governance Advisory and Implementation

Target Audience:

Organisations of all sizes and across all industries seeking expert guidance and support in establishing or enhancing their AI governance framework and demonstrating their commitment to responsible AI.

Secure and Responsible AI Development and Deployment

Build, deploy, and manage AI systems that are not only innovative but also secure, ethical, fair, and compliant.

We help you integrate security, responsible AI considerations, and robust data governance throughout the entire AI lifecycle, from design and development to deployment, monitoring, and ongoing management.

This service caters to organisations developing their own AI solutions and those utilising third-party AI applications.

Key Features of Secure and Responsible AI Development and Deployment

Responsible AI
design and
development

Bias detection and
mitigation

Explainable AI
(XAI)

AI security

Data governance
for AI

AI governance tool
selection and
implementation

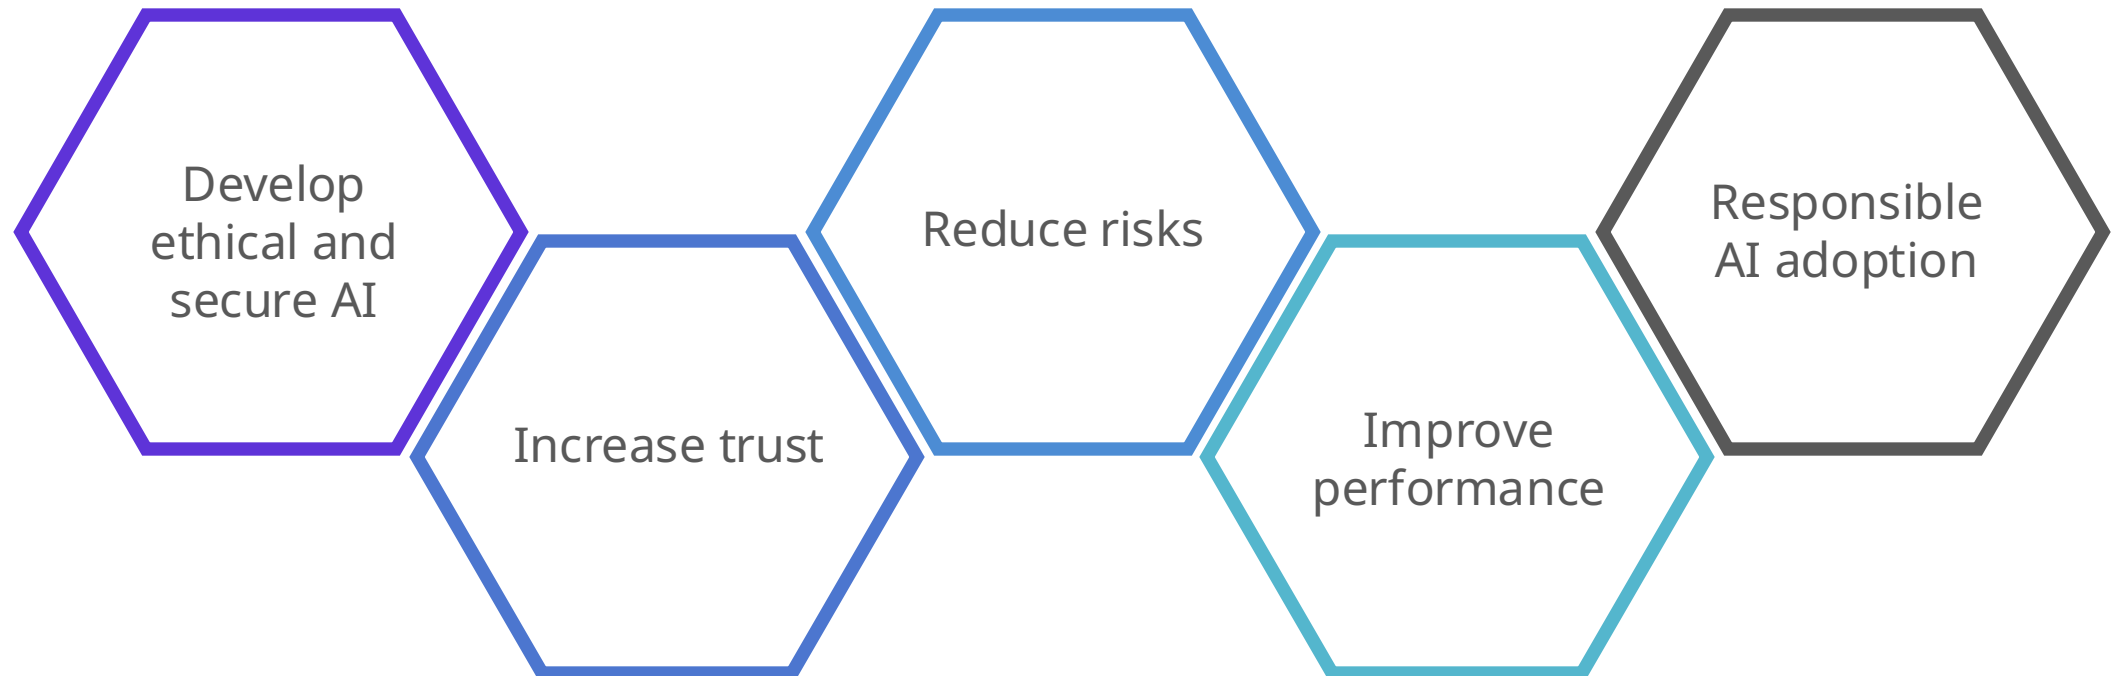

Performance
monitoring and
optimisation

Responsible AI
adoption

Benefits of Secure and Responsible AI Development and Deployment

Target Audience:

Organisations developing or deploying AI systems, particularly those with a focus on fairness, transparency, and accountability.

AI Training, Awareness, and Strategic Planning

Equip your team with the knowledge, skills, and strategic direction to effectively leverage AI in a responsible and ethical manner.

We offer comprehensive training programs, awareness initiatives, and strategic planning workshops to guide your AI journey from vision to implementation.
