

**INTRODUCING**

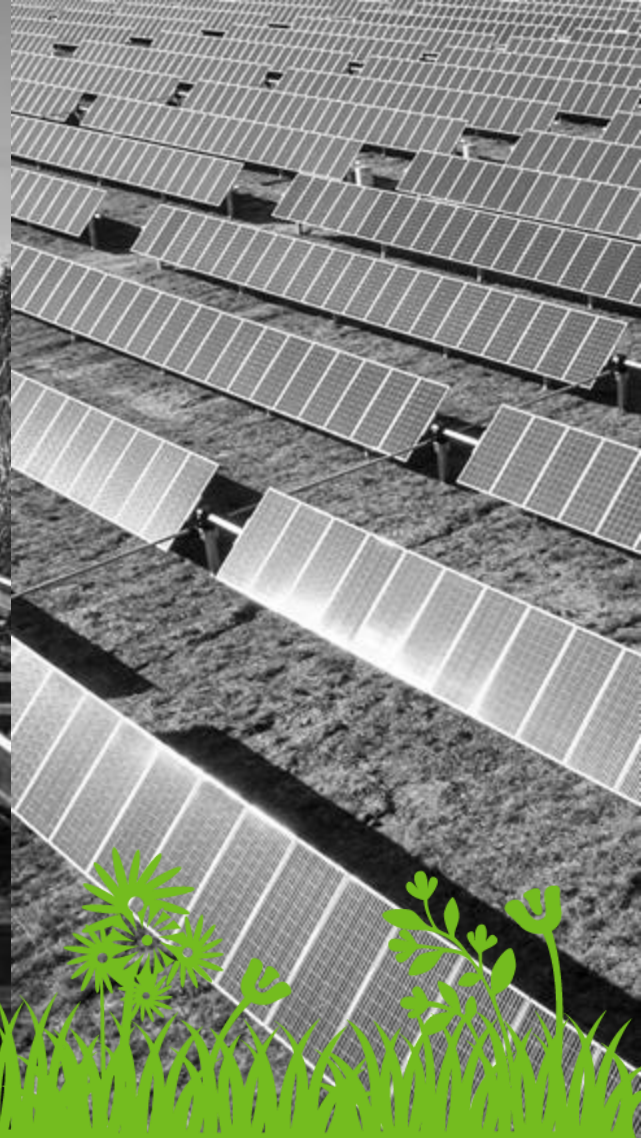

**IVM GROUP**

**Providing clients with  
science-based programs**  
that deliver new and  
effective solutions to  
conventional problems.

**High Risk Vegetation exists in and around assets like**  
Airports | Powerlines | Railways | Energy farms

VEGETATION GROWING AROUND THESE ASSETS IS

often dangerous  
hard to access  
to manage

**POSING A SIGNIFICANT**

**RISK**

to maintenance personnel,  
stakeholders, and the  
general public

## WITH SERIOUS POTENTIAL CONSEQUENCES INCLUDING

Aircraft  
bird strikes

Train  
derailments

Power  
outages

**BY BRINGING TOGETHER**

**Recognised  
experts**

**Unparalleled  
experience**

**Science-based  
approach**

**WE DELIVER AWARD WINNING**

Integrated  
Vegetation  
Management  
solutions

**FOR HIGH RISK SITUATIONS**

Results

## **OUR APPROACH**

is outcome based and solution focussed.

# DELIVERING ROBUST STRATEGIES TO

**Limit**  
weed  
pressure

results

**Increase**  
desirable  
species  
composition

**OUR APPROACH**

is outcome based and solution focussed.

# DELIVERING ROBUST STRATEGIES TO

**Increase**  
safety

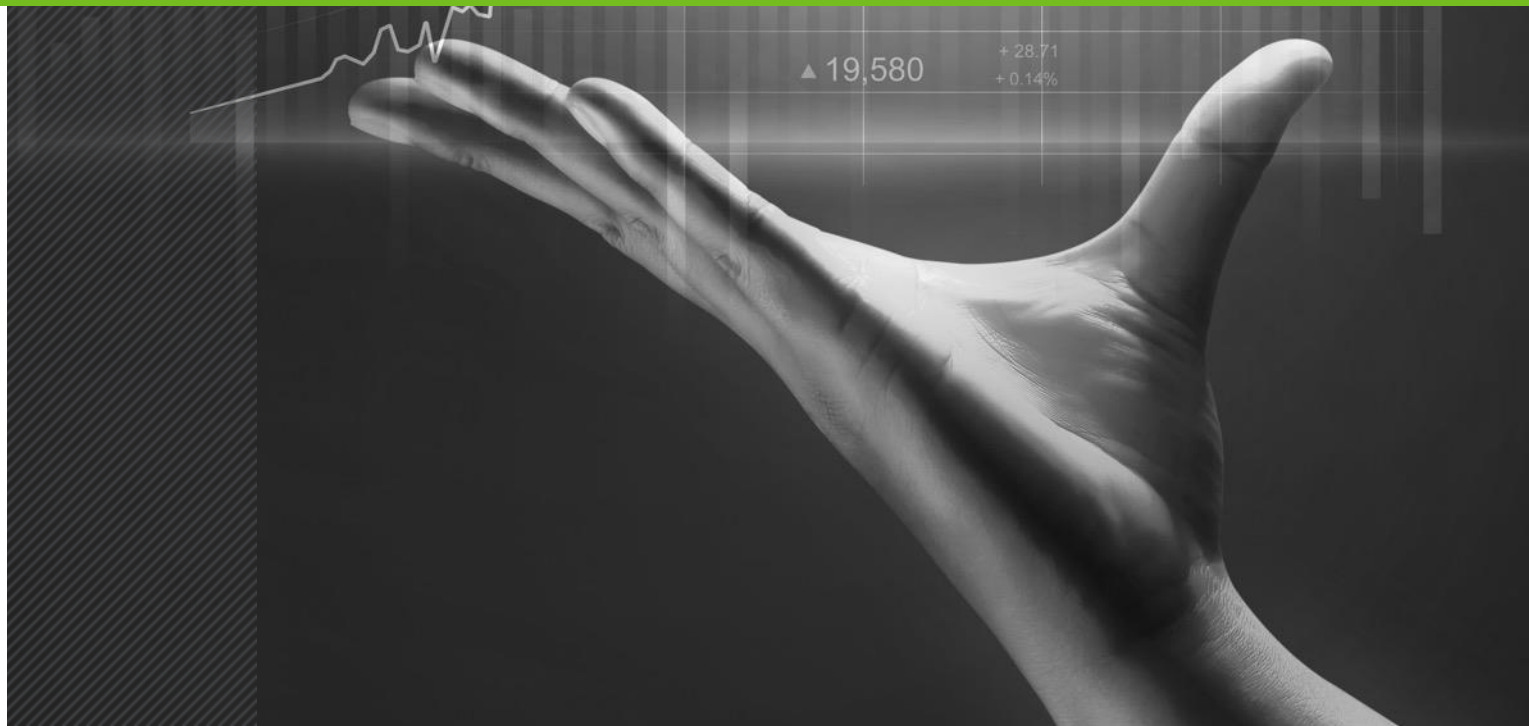

Results

**Increase**  
**Reduce**  
risk

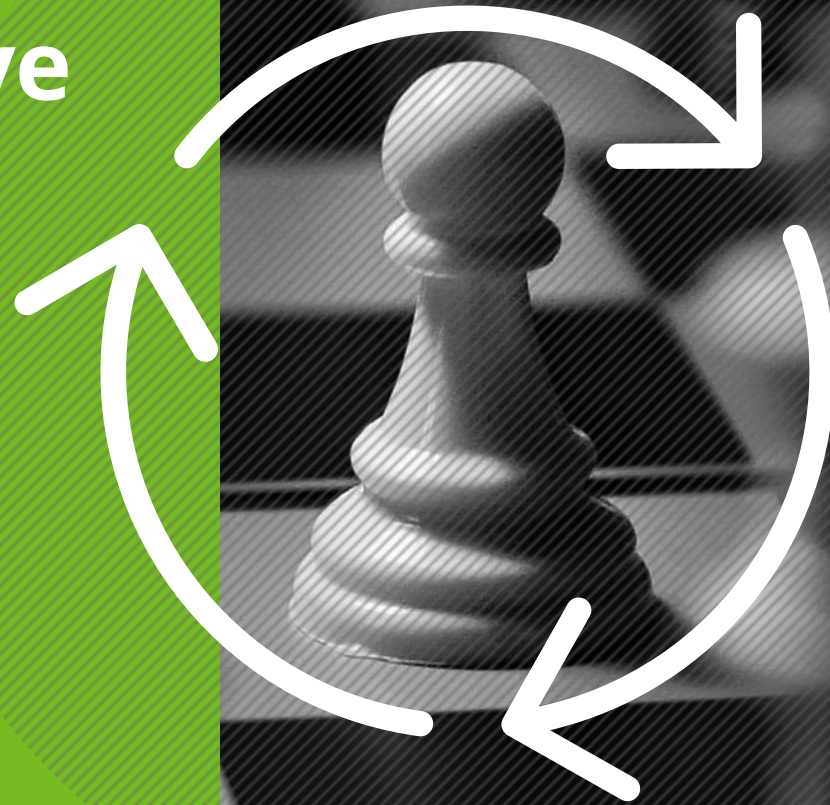

# ◀ ALL WHILST EXTENDING THE ASSET LIFE ▶

our clients.

Rather than  
relying on the  
**same repetitive  
and reactive  
strategies,**

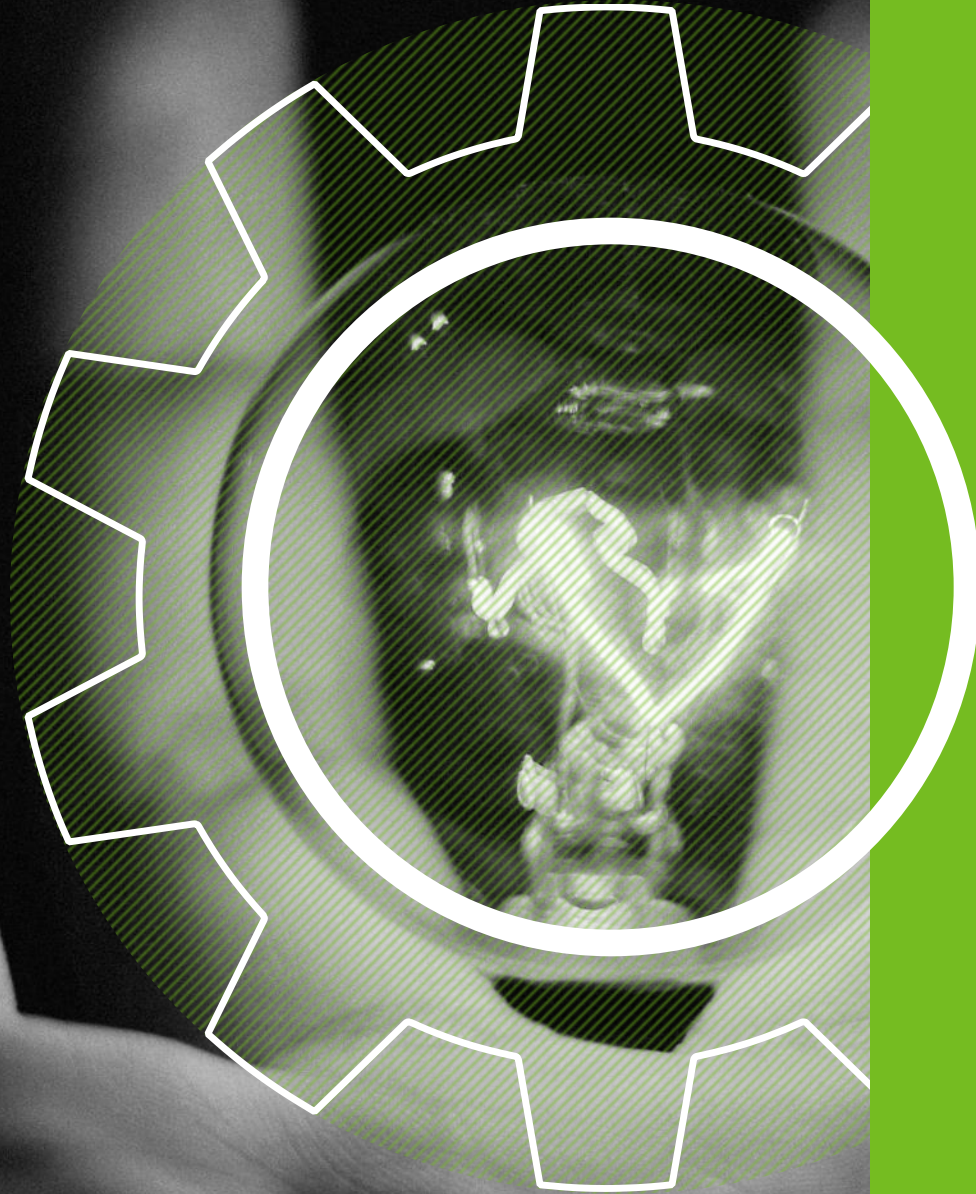

the IVM process  
manages complex  
vegetation issues  
**holistically.**

Proactively using  
**innovative tools,**

and efficiently  
**deploying**  
**existing**  
**resources**

to achieve outcomes  
**that are safer**

**and more sustainable**

Most importantly,  
**our science-based  
programs are  
site specific**

Most importantly,  
**our science-based  
programs are
