PROUD DISTRIBUTORS OF:

Contractor Packages

We offer vehicle specific pre-designed trade packages that are optimized with the correct equipment for your trade. Our basic Starter Packages typically include a steel partition as well as steel shelves, and are a great starting point for any contractor.

Our General Service Packages are the next step up from the Starter Package, and include a wide range of shelving accessories such as: Locking Drawer Units, Utility Hooks, Shelf Dividers, and more.

We also offer Electrical & Gas Packages, which have a focus on increased storage, with an abundance of Drawer Units, Wire Spool Holders, and more.

Our Plumbing & HVAC Packages include shelves, accessories, as well as Welded Tank Racks for convenient, secure storage.

Custom Trade Packages

If our pre-designed trade packages aren't quite the right fit, our team is ready to work with you to build a custom package for your specific needs.

Stopping by our showroom and consulting a sales representative will allow us to inspect your van, create a custom part list from our various product lines, and give you an opportunity to see the equipment in person.

By using this booklet or our website, you can get an idea of the products we offer that you may want in your van's build.

Drop-Down Ladder Racks

Designed so that you never have to lift the entire weight of the ladder onto the roof again, the Drop-Down ladder rack lowers to a comfortable height for operators 5'4" or taller, allowing you to remove your ladder quickly and safely with your feet firmly on the ground.

The Drop-Down ladder rack has adjustable knobs to quickly change widths without tools, keeping your ladder secure, eliminating rattling, and lessening cab noise and driver distractions.

Grip-Lock Ladder Racks

The Grip Lock Ladder Rack features a unique tilt angle, allowing users 5'7" or taller to access the ladder at a safer and more reachable height. The tilt angle also provides a resting point for the ladder, assisting users when loading or unloading their ladder. Corrosion-resistant parts and protective materials keep the rack, your ladder, and your van looking and performing like they did on day one.

Utility Racks

The Utility Rack is our most economical option for storage on the roof of your van, as a standard 2 or 3 bar configuration with uprights, it is designed to help with what you need to carry. Our utility racks are corrosion resistant with no drill installation to help protect the value of your vehicle.

Steel Shelving

Our Steel Shelving from Adrian Steel, or Ranger Design is durable and available in a wide range of sizes to fit your van's height and wheelbase perfectly. Tools, equipment, and cargo come in all shapes and sizes. Our steel shelves can be adjusted to fit your needs. A wide range of accessories can be added to your shelves to truly customize your van's capabilities.

Aluminum Shelving

Our Aluminum Shelving from Ranger Design is the best option on the market. Aluminum Shelving is by far the quietest and toughest shelving there is with a major weight savings over other steel options. By combining the strength and rigidity of either steel or aluminum extrusions with a laminated (solid substrate) shelf base, you get a shelf tray that is strong, quiet, and very durable.

Delivery Shelving

If you need carry a variety of cargo or what you carry changes frequently, the folding shelf system will accommodate whatever your day might have in store for you. These systems are lightweight and durable giving you maximum payload capability without sacrificing quality.

Composite Partitions

If you're looking for a quieter, more enjoyable commute without sacrificing convenience or your well-being, then our composite partitions are the perfect fit. Featuring a one-piece construction and made of composite material, these partitions are designed to fit the contours of the vehicle for a tighter seal. The end result is a partition that provides you and your passengers with greater climate control, odor control and sound deadening for a more comfortable ride.

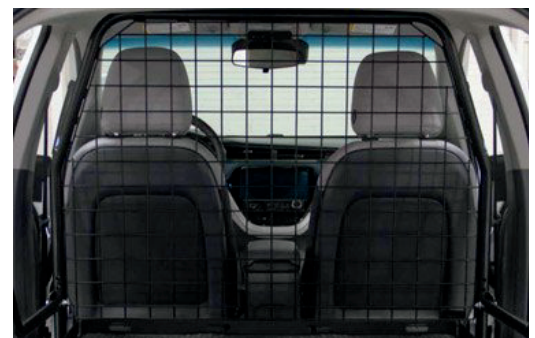

Steel Partitions

The classic all-steel partitions are designed to fit your full-size or compact van securely. Choose between solid panels or perforated panels which allow air and heat into the cargo area. An optional door kit is available for those wanting to reduce exposure to the elements, or for those looking for quicker cargo access. For those who need it, an optional 3" setback mounting kit increases the backrest angle for added comfort. For convenience, add accessories to the cab and/or cargo side of the partition for additional storage.

Wire Partitions

A full mesh wire partition provides maximum visibility and airflow. The recessed design allows for maximum adjustment of the front seats without restricting the storage space in the back of your work van. Adrian Steel's wire partition is a lightweight and economical option. Not recommended for those who will be carrying smaller items as they could pass through the wire mesh in the event of a sudden stop or accident. Wire Partitions are only available on compact vans such as: Ford Transit Connect, RAM ProMaster City, and Nissan NV200.

Floors

We offer Rubber, Composite, and coated Marine Grade Plywood floors that are custom cut to fit your van. Floors provide added safety with improved grip that are impact and puncture-resistant to help protect your vehicle in the event of falling cargo. Additionally, while partitions are the best way to help minimize noise for contractors on the go, work van flooring plays a big role too. Rubber work mats go a long way in dampening any sound in the cargo area of your van, further reducing the metal clangs and bangs of your day-to-day operation.

Wall, Ceiling, & Door Liners

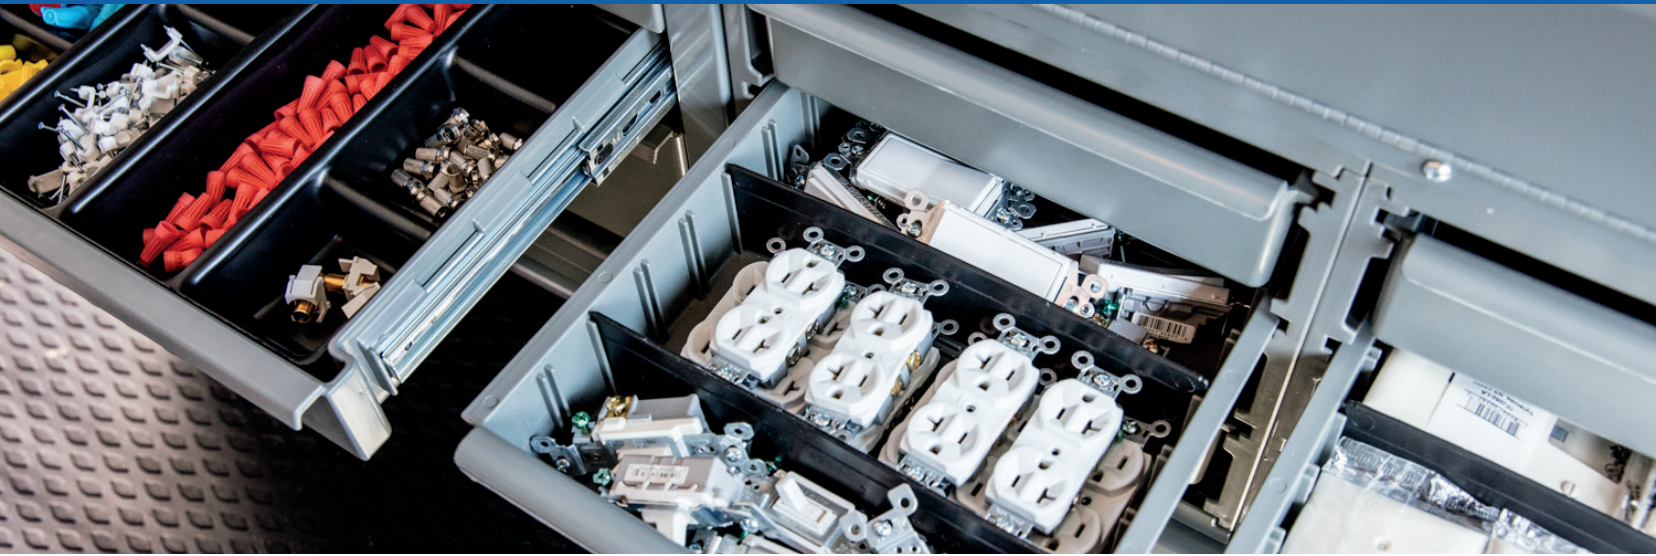

Wall, Ceiling and Door Liners are precision-cut, and pre-drilled for perfect fit and clean installation. We offer two different Liner options; Duratherm provides an insulated foam and foil backing for noise deadening and temperature control. Econolight Liners offer a budget minded solution while still providing protection.

Windows

Want to add windows to your van? Our Privacy Glass windows are configured to fit within the OEM stampings and provide a customized OEM look. The glass is contoured to match the exterior shape of the van for a seamless appearance.

Pull-out Drawers

Pull-out drawers help keep your cargo organized and easily accessible. Featuring drawer retention, all drawers will remain closed and keep your cargo in tact while you're in transit. Locking Drawers allow you to conceal your cargo, which not only looks professional, but it keeps your valuables safe by keeping them out of sight. Our drawers also feature a locking latch to secure your tools when they're not in use.

Floor Drawers

Floor drawers are perfect for placing near rear or side doors so you have easier access to what you need without climbing into the van. Units are lockable to reduce theft. They also conceal your tools and consumables for added security with a clean professional look. Our floor drawers feature an anti-slam latch that helps protect your hands and fingers from injury.

Cabinets & Lockers

Contain and secure your personal belongings or expensive tools and consumables with our line of cabinets and lockers. Not only do these create a clean, professional look by tucking your cargo out of sight, but they're available in a variety of heights, widths, and depths to accommodate what you need to carry. Our cabinet and locker units can stand alone, be stacked or added to shelving to form a customized storage solution.

Portable Bins & Dividers

Portable bins are made of composite material that is strong, durable, and lightweight. They are available in a variety of sizes and are easily removable. Dividers can help organize the contents of your bins.

Hooks

Our versatile Hooks attach to any flat surface, allowing you to save time and energy when placed near the rear or side doors.

Cable & Wire Storage

Mount your cable and wire storage solution near the rear doors of your vehicle so you can quickly locate and grab the wire you need.

Door Kits

These convenient and easy-to-install door kits convert an open shelf into a locking cabinet for added security.

Portable Parts Cases

Our Parts Cases are easy to transport, feature an impact resistant lid, and allow for dividers to configure the inside of your case.

Window Screens

Wire screens protect the window from shifting cargo and also deters incidents of smash-and-grab theft.

Grab Handles

Reduce slips, trips, and falls in all weather conditions while climbing in and out of the van with convenient Grab Handles.

Safety Steps

The Safety Step reduces the height of the step in and out of the van allowing for safer entering and exiting. The grated platform allows dirt and water to drain through preventing build-up.

Tank Storage

Tanks are heavy, and climbing in and out of the van frequently to reach your tanks takes a toll on your body. Our tank storage solutions make your job easier by placing your tanks near the side or rear doors for easy access.

Door Storage

Grab-and-go storage on the rear doors of your vehicle provide for convenient access to frequently used items such as aerosol cans, hand tools, or cleaning products.

Center Consoles

Center Consoles are lockable and provide convenient storage for folders, notepads, tablets, and other important items. They also feature a cable port to allow easy charging while leaving the console locked.

Safety Accessories

We offer a wide range of safety accessories such as First Aid Trays, Hard Hat Storage, and Reflector Kits.

Fiberglass Caps

Fiberglass Truck Caps provide a sleek and lightweight solution that can be customized to meet all of your needs.

We install Fiberglass Caps from Jeraco, which are available in a variety of heights: Cab-High, Mid-Rise, and High-Rise.

- Multiple Heights Available
- Customizable with Windows, Lighting, etc.
- Painted to Match

Adventure Caps

The SmartCap EVOa Adventure is a revolutionary pickup cap designed with the modern adventurer in mind. It features an innovative modular design and styling that will give your pickup a rugged new look.

Constructed from stainless steel, the SmartCap EVOa Adventure is built to withstand the harshest conditions. Its modular design includes gullwing doors with integrated MOLLE panels allowing easy access to your gear without needing to climb inside.

Overall the SmartCap EVOa Adventure is a great option for outdoor enthusiasts and overlanders. This truck topper combines rugged styling with impressive functionality that sets a new standard for caps.

Aluminum Contractor Caps

We offer Aluminum Contractor Caps from manufacturers like Adrian Steel, Jeraco, and Ranger Design. Aluminum is the top choice for contractors seeking a lightweight and durable option that will last for years to come.

Adrian Steel's new Cap features a modular design and an impressive 30% more square footage of cargo access compared to competitors. It also has the industries best lead time – get your cap in days, not weeks.

Stainless Steel Contractor Caps

SmartCap EVOc stands for commercial grade. That means it was forged from tough-as-nails automotive-grade stainless steel. Why shouldn't your truck cap be as tough as your truck bed?

When combined with the stainless steel doors, the rear window optional Security Screen mesh adds an extra layer of protection for your SmartCap EVOc.

Heavy Duty Contractor Caps

Heavy Duty Contractor Caps feature an all-welded frame, and can be fully customized with a wide range of features such as doors, lighting, windows, and much more.

Jeraco's Heavy Duty Contractor Caps are built with a double welded, fully boxed aluminum frame attached to heavy duty base rails for superior strength.

Utility Racks

A versatile workhorse for your pickup truck, Utility Racks feature a sleek and low-profile design, and rugged durability.

Adrian Steel's HD Utility Rack offers a No-Drill Installation, 2/3 Bar Configurations and other Optional Add-ons.

Clamp Ladder Racks

Clamp (Grip-Lock) Ladder Racks utilize a simple one-handle operation and adjustable clamping pads that provide safe and easy operation.

Grip-Lock ladder racks give you the flexibility to carry a variety of ladders.

- Adjustable Clamp Brackets
- Adrian Steel's Grip-Lock : 100% Aluminum with Stainless Steel Fasteners

Drop-Down Ladder Racks

By adding a Drop-Down Ladder Rack to your truck's cap you can minimize the risk of injury by safely lowering your ladders down to a comfortable height.

- Safe and secure storage for ladders
- Available as a Standard-Drop or Max-Drop

Adjustable 2-Bar Ladder Racks

Adjustable 2-Bar Ladder Racks can be adjusted to the length of the bed to carry different loads and can easily be removed. These ladder racks are aerodynamic, quiet, and can be installed without the need to drill into the truck. We also offer ladder rack models that are compatible with select tonneau covers.

Aluminum Ladder Racks

Heavy-duty Aluminum Ladder Racks offer the best in cargo capacity and weight reduction for your truck. A high-quality ladder is an important part of your equipment inventory and an expensive investment. An Aluminum Ladder Rack is the best way to keep your ladder safely stored on top of your commercial truck.

Steel Ladder Racks

Steel Ladder Racks offer versatile storage with removable center and rear crossbars that allow you to carry larger, taller loads while welded tie-down cleats give you additional points to secure your cargo. These Ladder Racks are the perfect combination of strength, durability, and design. They're the top choice of many industries.

Adrian Steel Extendedobed

The Extendedobed is Adrian Steel's newest addition to their line of truck storage solutions. The Extendedobed beats out the competition with an impressive 110% extension past the taillights of your truck, eliminating the need to lean and reach into your vehicle.

With less operator strain you can raise the standard of safety for you and your employees, meaning fewer workplace accidents, and fewer worker's comp claims.

- 110% Extension, Past Taillights
- Commercial Grade Construction (XL Roller Bearings)
- 1,200 lb. Weight Capacity
- Limited 20-Year Warranty

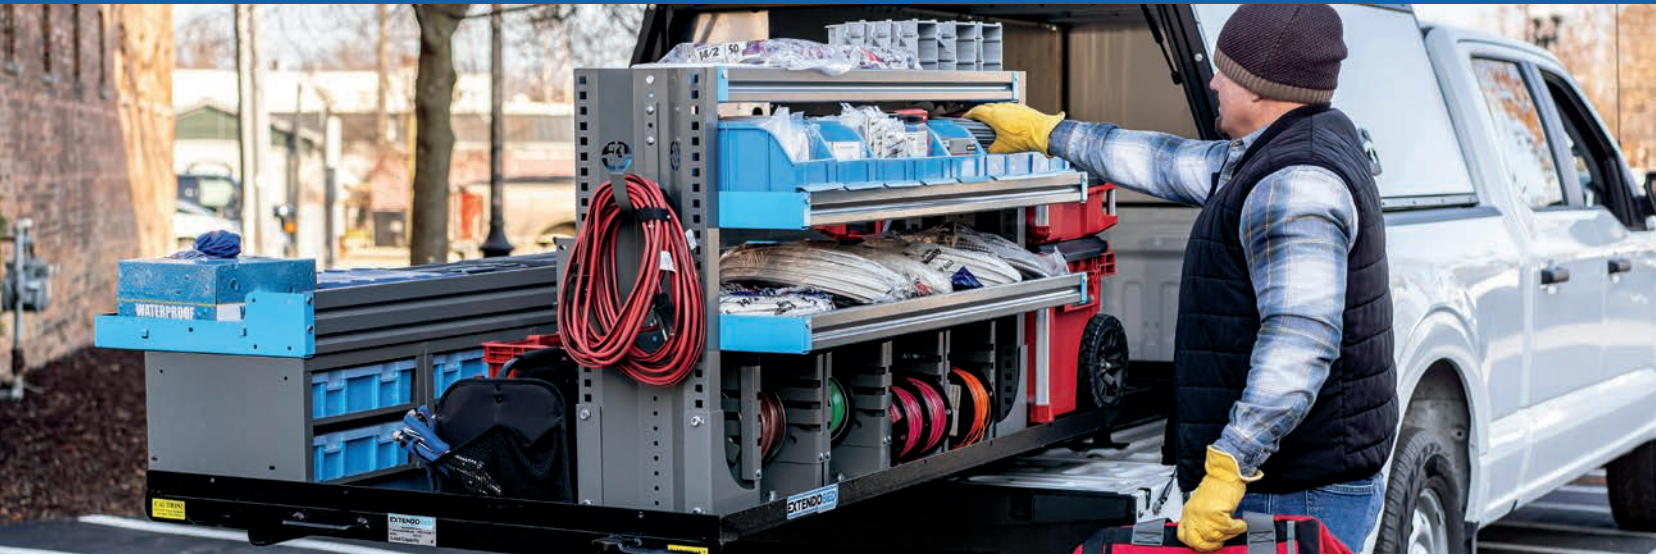

CargoGlide & Drawer Systems

The CargoGlide can handle heavier loads, with a capacity of up to 2,200 pounds on certain models. It comes in various payload options and extension levels, offering either 75% or 100% tray extension to suit different needs and vehicle sizes.

The CargoGlide can easily be operated with one hand due to heavy-duty ball bearings allowing for smooth action.

The Drawer Systems provide a huge boost in storage capability. It features full bed-length drawer and side access pass-throughs to the wheel wells.

Bed Slide Modular Shelving

Unlock the full potential of your bed slide with Adrian Steel's cutting-edge modular shelving. We are able to install a wide range of shelving and accessories onto your Extendobed or CargoGlide.

- Fully utilize your cargo area's capacity
- Purpose-built equipment designed to be compatible with the Extendobed
- Eliminate the need to crawl into your trucks bed

HVAC Bed Slide Equipment Packages

Make work a breeze with our Extendobed storage package. Designed from the ground up for HVAC/Mechanical professionals, you'll get plenty of room for tanks, pumps, hoses and more all readily accessible on our state-of-the-art Extendobed slideout storage platform.

Electrician Bed Slide Equipment Packages

Let your work current flow with no resistance thanks to the Extendobed trade package for Electrician professionals! Built for you, this truck package keeps a place for all the hardware, conduits, and cables you need for the job, but lets you get to them quickly thanks to our convenient Extendobed slideout and storage shelving.

Roll-Up Tonneau Covers

The Roll-Up Tonneau Cover is a convenient way to keep your cargo covered for everyday use. They allow you to use virtually your entire bed while it is rolled up.

We offer Roll-Up Tonneau Covers from manufacturers such as: Access, Truxedo, BAK Industries, and more.

Soft Tri-Fold Tonneau Covers

The Soft Tri-Fold Tonneau Cover has soft curves and a sleek design that creates a smoother, more contoured, low profile appearance. The tarp is constructed of heavy-duty, leather grained fabric with an integrated corner tuck system that has improved tarp tension and keeps your truck looking great. We offer Soft Tri-Fold Tonneau Covers from manufacturers like: Extang, TrailFX, and Lund.

Hard Tri-Fold Tonneau Covers

Hard Tri-Fold Tonneau Covers are heavy-duty and designed to perform in extreme conditions. If you're worried about the safety and security of your cargo, a Hard Tri-Fold is the best option available. They are available in two different styles, one which is raised over the bed rails and one which is mounted inside of the bed rails. We offer Hard Tri-Fold Tonneau Covers from manufacturers like: BAK Industries, Extang, UnderCover, TrailFX, and WeatherTech.

Headache Racks

Protect your rear window from shifting cargo and other hazards with Headache Racks from popular companies such as BackRack.

Trailer Hitches

Whether hauling a trailer or a camper, we offer the best trailer hitches from brands from Curt, Draw-Tite, StealthHitch, and more.

Step Bars/Running Boards

We offer a wide range of Step Bars that will make getting in and out of your vehicle a breeze. These Step Bars are available in aluminum or stainless steel and are crafted to fit perfectly to your vehicle.

Toolboxes

We offer Toolboxes from manufacturers like Adrian Steel, Weather Guard, and TrailFX to keep your tools safely stored.

Bed Liners

Protect your truck's bed from damage typically caused by day-to-day use with a Bed Liner. We offer Bed Liners from Penda, Westin, and TrailFX.

Floor Liners

WeatherTech Floor Liners are laser measured to protect the front, back and even up the sides of your vehicle's foot-well. For ultimate strength and dependability.

Backup Cameras

We offer a wide assortment of backup camera systems. If your vehicle is equipped with a colored screen or a navigation screen we may be able to install a backup camera into it. We can also install an aftermarket radio and add a backup camera to it. Basic systems start off with just a rear view mirror replacement. Many mirrors are available that can add features like navigation, including Homelink, compass, and or temperature.

Parking Sensors

Parking sensor systems use ultrasonic proximity detectors embedded in the front and/or rear bumpers, to measure the distances to nearby objects at low levels. The sensors measure the time taken for each sound pulse to be reflected back to the receiver. Depending on the speed of the vehicle and the distance to the obstacle, the system will warn the driver with an audible alert about the risk of collision.

Dash Cameras

Dangerous drivers are becoming far more common, protect yourself with a Dash Cam. Our high-definition Dash Cameras give you easy access to your video files using the paired app to provide additional driving insights such as speed, location, and trip data. Installation is available for both front and rear security protection.

Remote Car Starters

Remote Starters allow you to warm your vehicle up in colder months, or get the A/C cooling it down in the summer. They're available as a 1-Way or 2-Way remote kit that can be paired with DroneMobile. Our basic remote starts at 3000 ft. of range, is water-resistant, and locks/unlocks your vehicle. More advanced remotes can feature LCD screens, rechargeable batteries as well as increased range.

Power Inverters

Power Inverters are essential for tradesmen everywhere, allowing you to charge your power tools, and other electronics on site. Our high efficiency DC-AC inverters feature ignition ON/OFF – 1 wire input, overload protection, low battery alarm / shut down, and low idle power draw.

Interior Lighting

Add interior LED lighting to your van to greatly improve visibility within your vehicle. These lights are able to be controlled by the vehicle's original door pin, or a switch can be mounted to turn them on or off.

Compact Strobes

Designed for advanced performance, there is a Whelen strobe for every need. Compact and versatile, these strobes are designed to be utilized in a multitude of applications with numerous mounting options.

- Available in Amber and or White combinations
- Multiple mounting options for a variety of applications
- Typically mounted in the grille and bumpers
- Numerous flash patterns

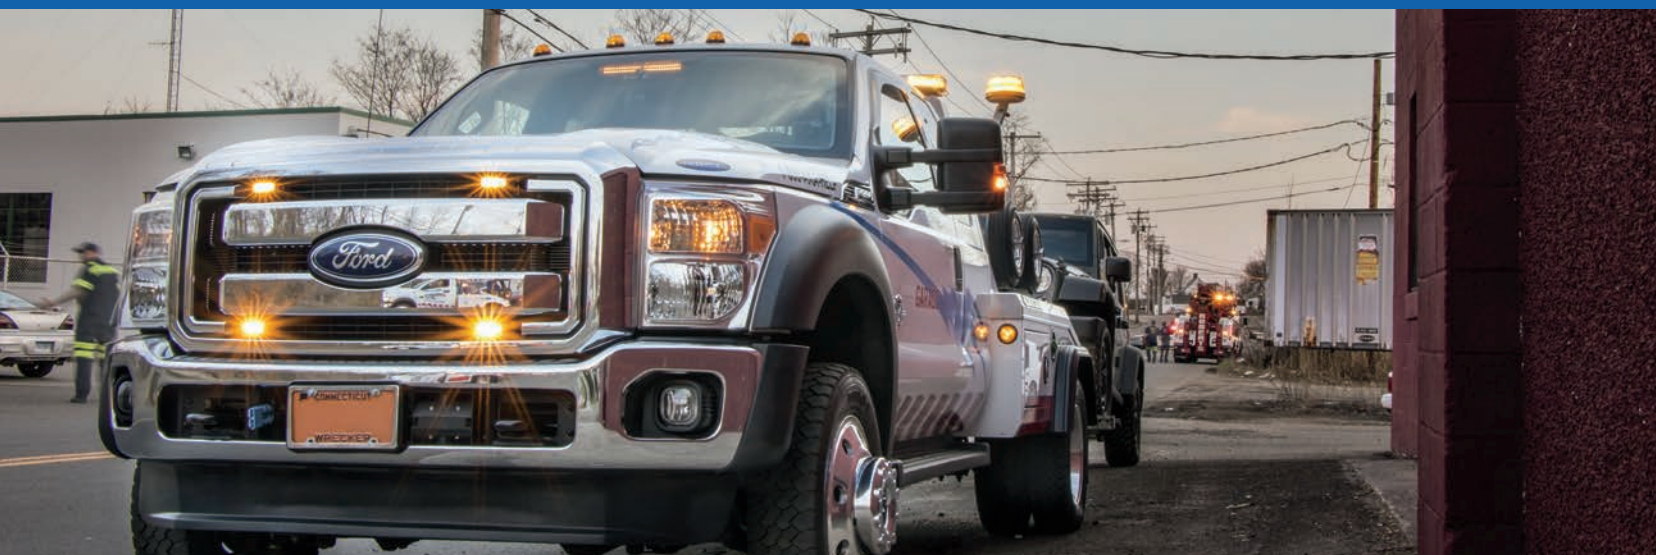

Lightbars

Whelen lightbars are fully equipped with a range of innovative technologies to provide optimal warning capabilities. Full-size lightbars utilize powerful LEDs in tandem with reflector technology for the best visibility.

Mini Lightbars are also available for applications where a full-size bar just won't work!

- Low profile designs reduce air drag
- Hard-coated lenses for exceptional durability

Traffic Advisors

Proper illumination is paramount for roadside work. Whelen Traffic Advisor™ products help motorists safely navigate around every scene with unmatched light output and versatile control.

Whether navigating work zones or facing inclement weather, ensure your trucks are prepared.

Beacons

Whelen beacons are engineered for long life reliability with advanced features and numerous options for every price point. We offer high and low dome models to fit your exact needs.

- Rated for thousands of hours of use
- Conformal coated electronics provide moisture and vibration resistance
- Hard-coated domes, Polycarbonate bases

Spotlights

Designed with instant on/off capabilities, powerful spot and flood optics, and rugged mounting options, Whelen's illumination products provide bright and safe scenes.

Prisoner Transportation

From passenger van partitions, to window guards, vinyl seats, and more. We are able to upfit your prisoner transportation fleet with all required equipment that will ensure the safety of all passengers.

- Safety Partitions
- Window Guards
- Vinyl Interiors

Student Transportation

Parents and school administration expect a high standard for school transporters. We offer a wide range of technology and safety equipment that will help you meet these demands.

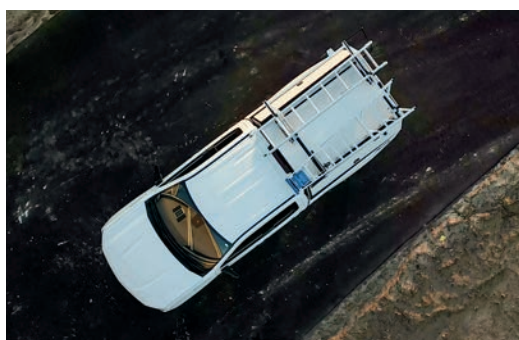

- Fleet Tracking
- Running Boards, Safety Steps, Grab Handles
- Warning Lights, Strobe Lights
- Vinyl Interiors

Municipal Vehicles

We can equip your fleet of trucks and vans with a full range of upfit solutions that will optimize and improve your department's capabilities. We can also facilitate the transfer of old equipment to new vehicles.

- Equipment Transfer Service
- Fleet Solutions
- Ladder Racks
- Van Upfits

Front & Rear DVR Systems

Adding a front and rear DVR system to a commercial vehicle enhances safety and accountability by providing clear evidence in accidents and monitoring driver behavior. We install DVR Systems from manufacturers such as Thinkware.

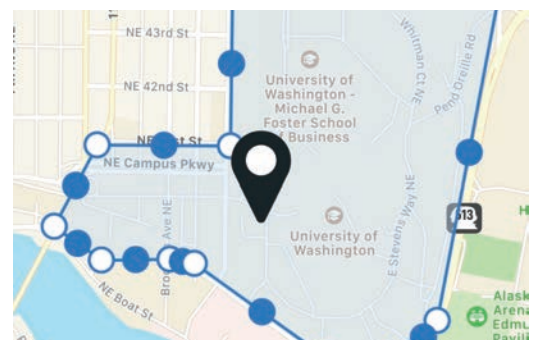

Vehicle Tracking

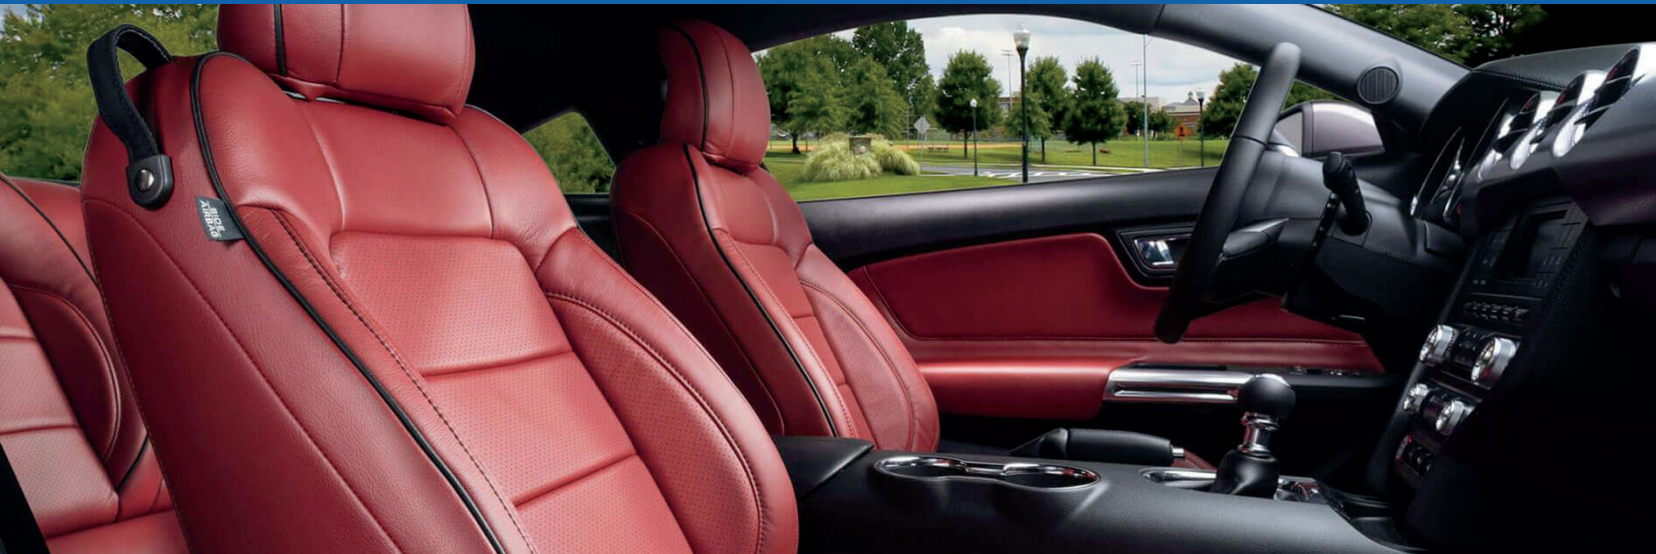

We offer vehicle tracking and management solutions for small to mid-sized fleets. Track any of your vehicles on your smartphone or computer at any time and set vehicle-specific alerts so that you can stay on top of your business! Vehicle Tracking is available through DroneMobile or Geotab.

Real-Time Alerts

DroneMobile lets you stay connected to your fleet with a wide range of alerts. Geo-fences let you create boundaries to be notified when your vehicle enters/exits an area. If your vehicle has a Drone X1 Module, you can have up to 5 Geo-fences. Curfew Monitoring lets you set a window of time for authorized use of your vehicle, and get notified if it is driven outside of that window. Additionally you can check your vehicle's battery status and get maintenance alerts to avoid costly unexpected breakdowns!

Leather Interiors

Change your vehicle's cloth interior to leather. We install the finest imported automotive leathers, in a full spectrum of colors. Extensive trim and finish options, and nearly unlimited design choices are available for a truly custom interior.

- Handcrafted using the best quality automotive leather
- Match or exceed factory leather specifications and content
- Backed by a 3-year/36,000-mile warranty

Vinyl Interiors

For commercial interiors we recommend using vinyl for enhanced durability and ease of cleaning. These vinyl interiors are an ideal solution for fleets of vehicles that may require frequent cleaning such as student transportation. The material is can easily be wiped down with soap and water, and there is no need for special cleaning supplies to be used.

- Higher durability over leather interiors
- Easily cleaned with soap and water
- Available in a wide range of colors

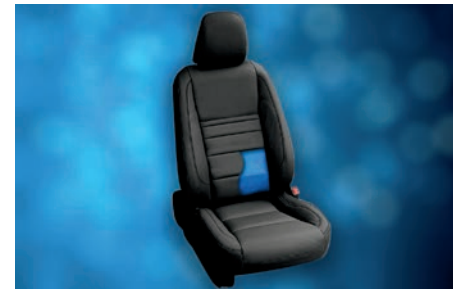

Car Audio

Upgrade your vehicle's sound system with a wide range of car audio equipment that can include Apple CarPlay and Android Auto. We are a full line dealer of Alpine, and JL Audio.

Heated Seats

Experience the gentle, therapeutic warmth of a heated seat system that works with cloth or leather vehicle seats.

Lumbar Support

Sick of back pain when driving? Adding Lumbar Support to your seat will drastically improve your comfort on long drives and commutes.

Car Alarms

Our available Alarm Systems monitor and protect your car from intrusion and theft. 2-way LCD remotes and select LED remotes provide instant alarm alerts in the event that your security system is triggered.

Paint Protection Film

Keep your vehicle's paint looking new with Paint Protection Film! This clear self-healing film can help protect against dings and scratches from small rocks and debris.

Mud Flaps

Protect your truck with the custom design of WeatherTech No-Drill Mud Flaps. They feature DigitalFit design for a perfect fit for your vehicle.
