Bulk Chemicals & Specialty Performance Materials

Experts in raw material supply and a proven history of
innovating products as a materials science company.

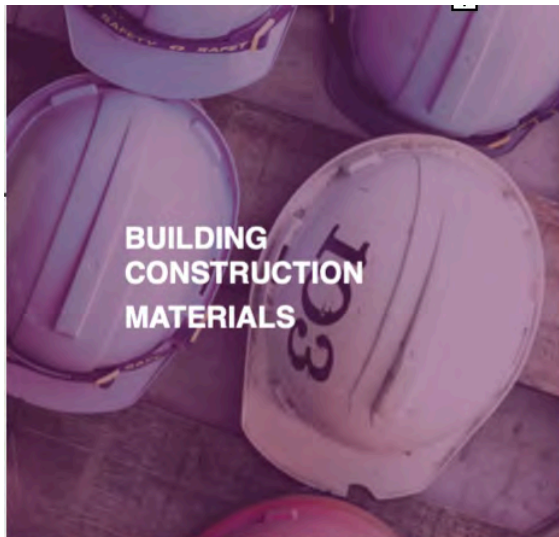

We represent leading global manufacturers, from more than 40 countries around the world as well a major supplier of core chemistries such as **lithium, magnesium, potassium** and specialty **silicon** performance materials and additives.

We are big enough to supply some of the largest industrial customers in the world, yet small enough to care about each and every shipment that bears our name — from importing & exporting, bulk material handling & processing, toll manufacturing & packing services to logistics and warehousing.

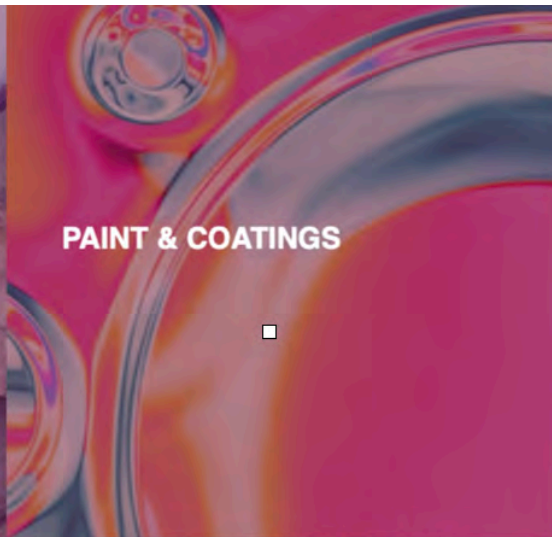

Learn more about our
Solutions >

**As a leading supplier of
LITHIUM, SILICA, MAGNESIUM, and POTASSIUM
specialty and fine chemicals, we offer an extensive
lineup of ingredients and derivatives.**

**BUILDING
CONSTRUCTION
MATERIALS**

PAINT & COATINGS

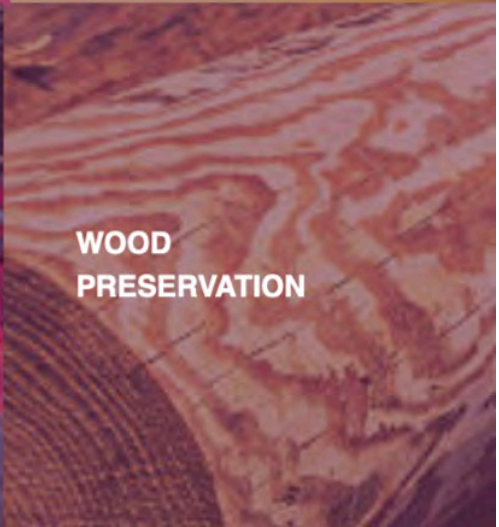

**GREASE &
LUBRICANTS**

**PLASTICS, PVC,
RUBBER & FOAM**

OIL & GAS

**WOOD
PRESERVATION**

Our expertise runs deep in developing new **technologies** and identifying **strategies** to commercialize them with long-standing industry connections and market know-how for **lithium, magnesium, potassium, silicon based chemistries.**

We are unique as many of our **core raw materials** are **vertical integrated as feedstocks** used in producing many of the specialty performance materials in our portfolio.

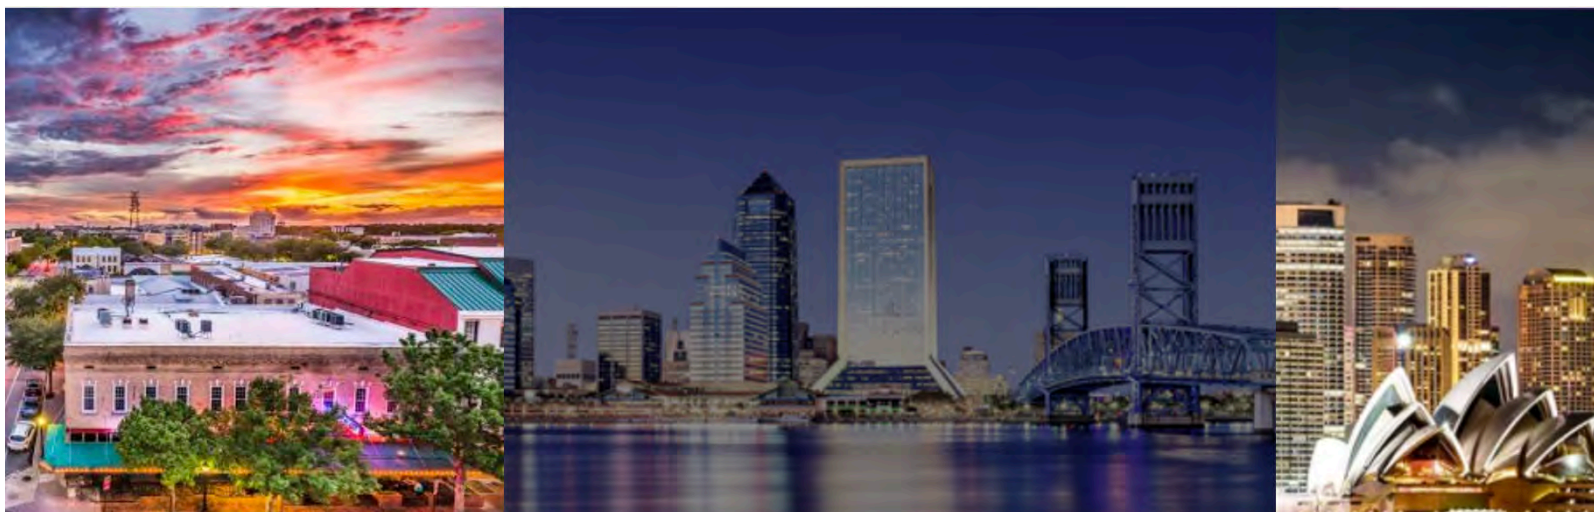

We are constantly engaged in **research** and **development** both in-house and in collaboration with universities, public institutes and private companies **creating proprietary and patented technologies** with clients with one common goal - to create competitive advantage for our clients.

We work across specific chemical segments of the industry, including **basic and intermediate chemicals, polymers, fibers, catalysts, and nano-technologies** - all commonly used in **paints and coatings, industrial products**, and other specialty segments such as, **refractories, ceramics, foundries, grease and lubricants, oil /gas, energy, and water-treatment.**

We've have helped chemical manufacturing companies across the globe gain access to new markets and discover new ways of expanding their business solving raw material challenges - from **sourcing**, securing **production, downstream products** to creating **break-through innovations and technologies** that have changed entire industries in record time, and a **score card to prove it.**

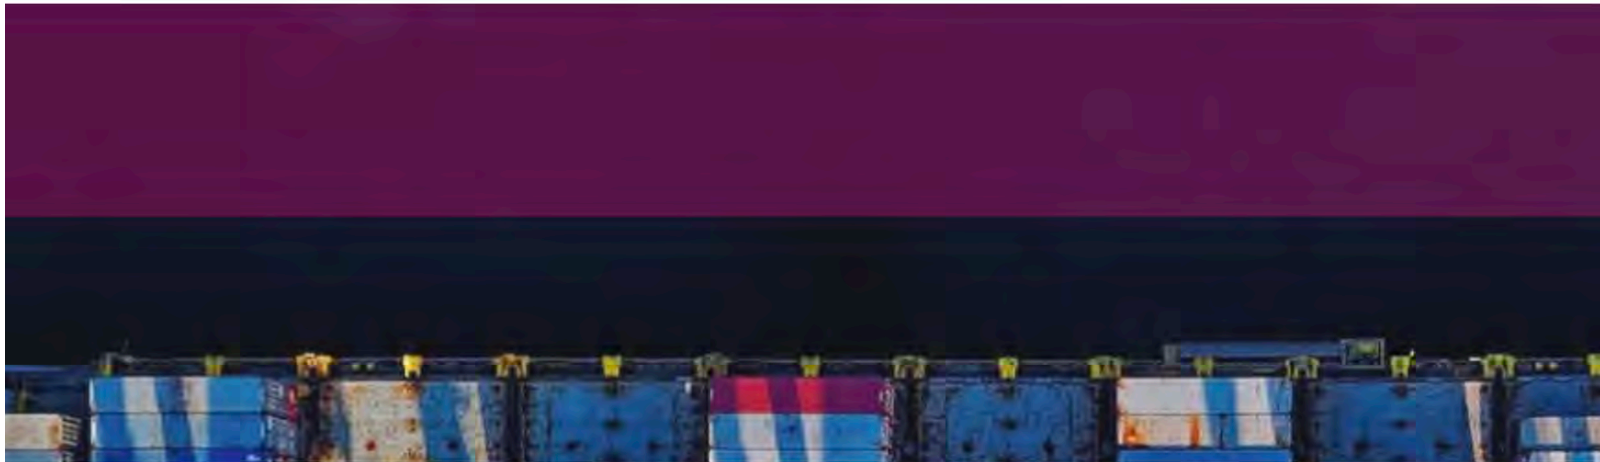

**Headquartered in Gainesville Florida with offices in Jacksonville FL,
Houston, TX and Sydney Australia AU.**

ASG Chemical Holdings, LLC. (ASG CHEMIE) is a raw material trading
and a technology holding company for various ventures, patents, and

This collaborative approach provides significant bargaining power with the trades.

USD \$39 Million

**40 Global Producing
Partners**

300 +
Products Available

Traceable sourcing of hard-to-find specialty raw materials.

It is through our comprehensive global network, which gives instant access to markets around the world, we provide responsible and traceable sourcing of hard-to-find specialty raw materials, chemicals and products.

Teaming with some of the strongest suppliers around the globe

Our sourcing teams continually align with leading worldwide chemical producers providing customers with the best solutions in today's marketplace. Teaming with the strongest suppliers around the globe has allowed us to assemble the comprehensive product portfolio for a variety of markets.

The combined expertise in strategic sourcing has enabled us to build a strong alliance of reputable manufacturers, especially in emerging specialized markets such as lithium, magnesium and silica based technologies. Through these long-standing relationships, we are able to source hard-to-find specialty chemicals, ingredients and additives for the latest innovative applications and trends. We are unique as many of our core raw materials are vertically integrated as feedstocks used in producing many of the specialty performance materials in our portfolio provide .

- Established, supplier relationships
- Trading offices in countries of origin to qualify materials
- More cost-effective raw material pricing
- Strategic alternate chemical sources
- Experience in securing supply agreements, off takes and production allocations

BULK TERMINALS, WAREHOUSING & DISTRIBUTION, AND LOGISTICS

From break bulk, silos, tankers, containers to less-than truckloads quantities, we aim to fulfill our customers' needs no matter the circumstances.

We offer complete intermodal logistics support for direct container deliveries from seaport or rail head, as well as local distribution from warehouses in proximity to our customers.

- Bulk packaging (drums, totes, ISO tanks, etc.)
- FCL deliveries from port or LTL from warehouse
- Intermodal freight options via truck, rail or air

IMPORTING / EXPORTING

Expertise in importing / exporting materials goes far beyond moving materials from one dock to the next, it requires the “know-how” and the “how” of doing it.

As global trade experts we are experienced in the materials, procedures and regulations offerings a truly integrated structure that allows us all to benefit from established long-term supply relationships across the wider network for Asia Pacific, Oceania Middle East and Europe and our customers with our subsidiary partners.

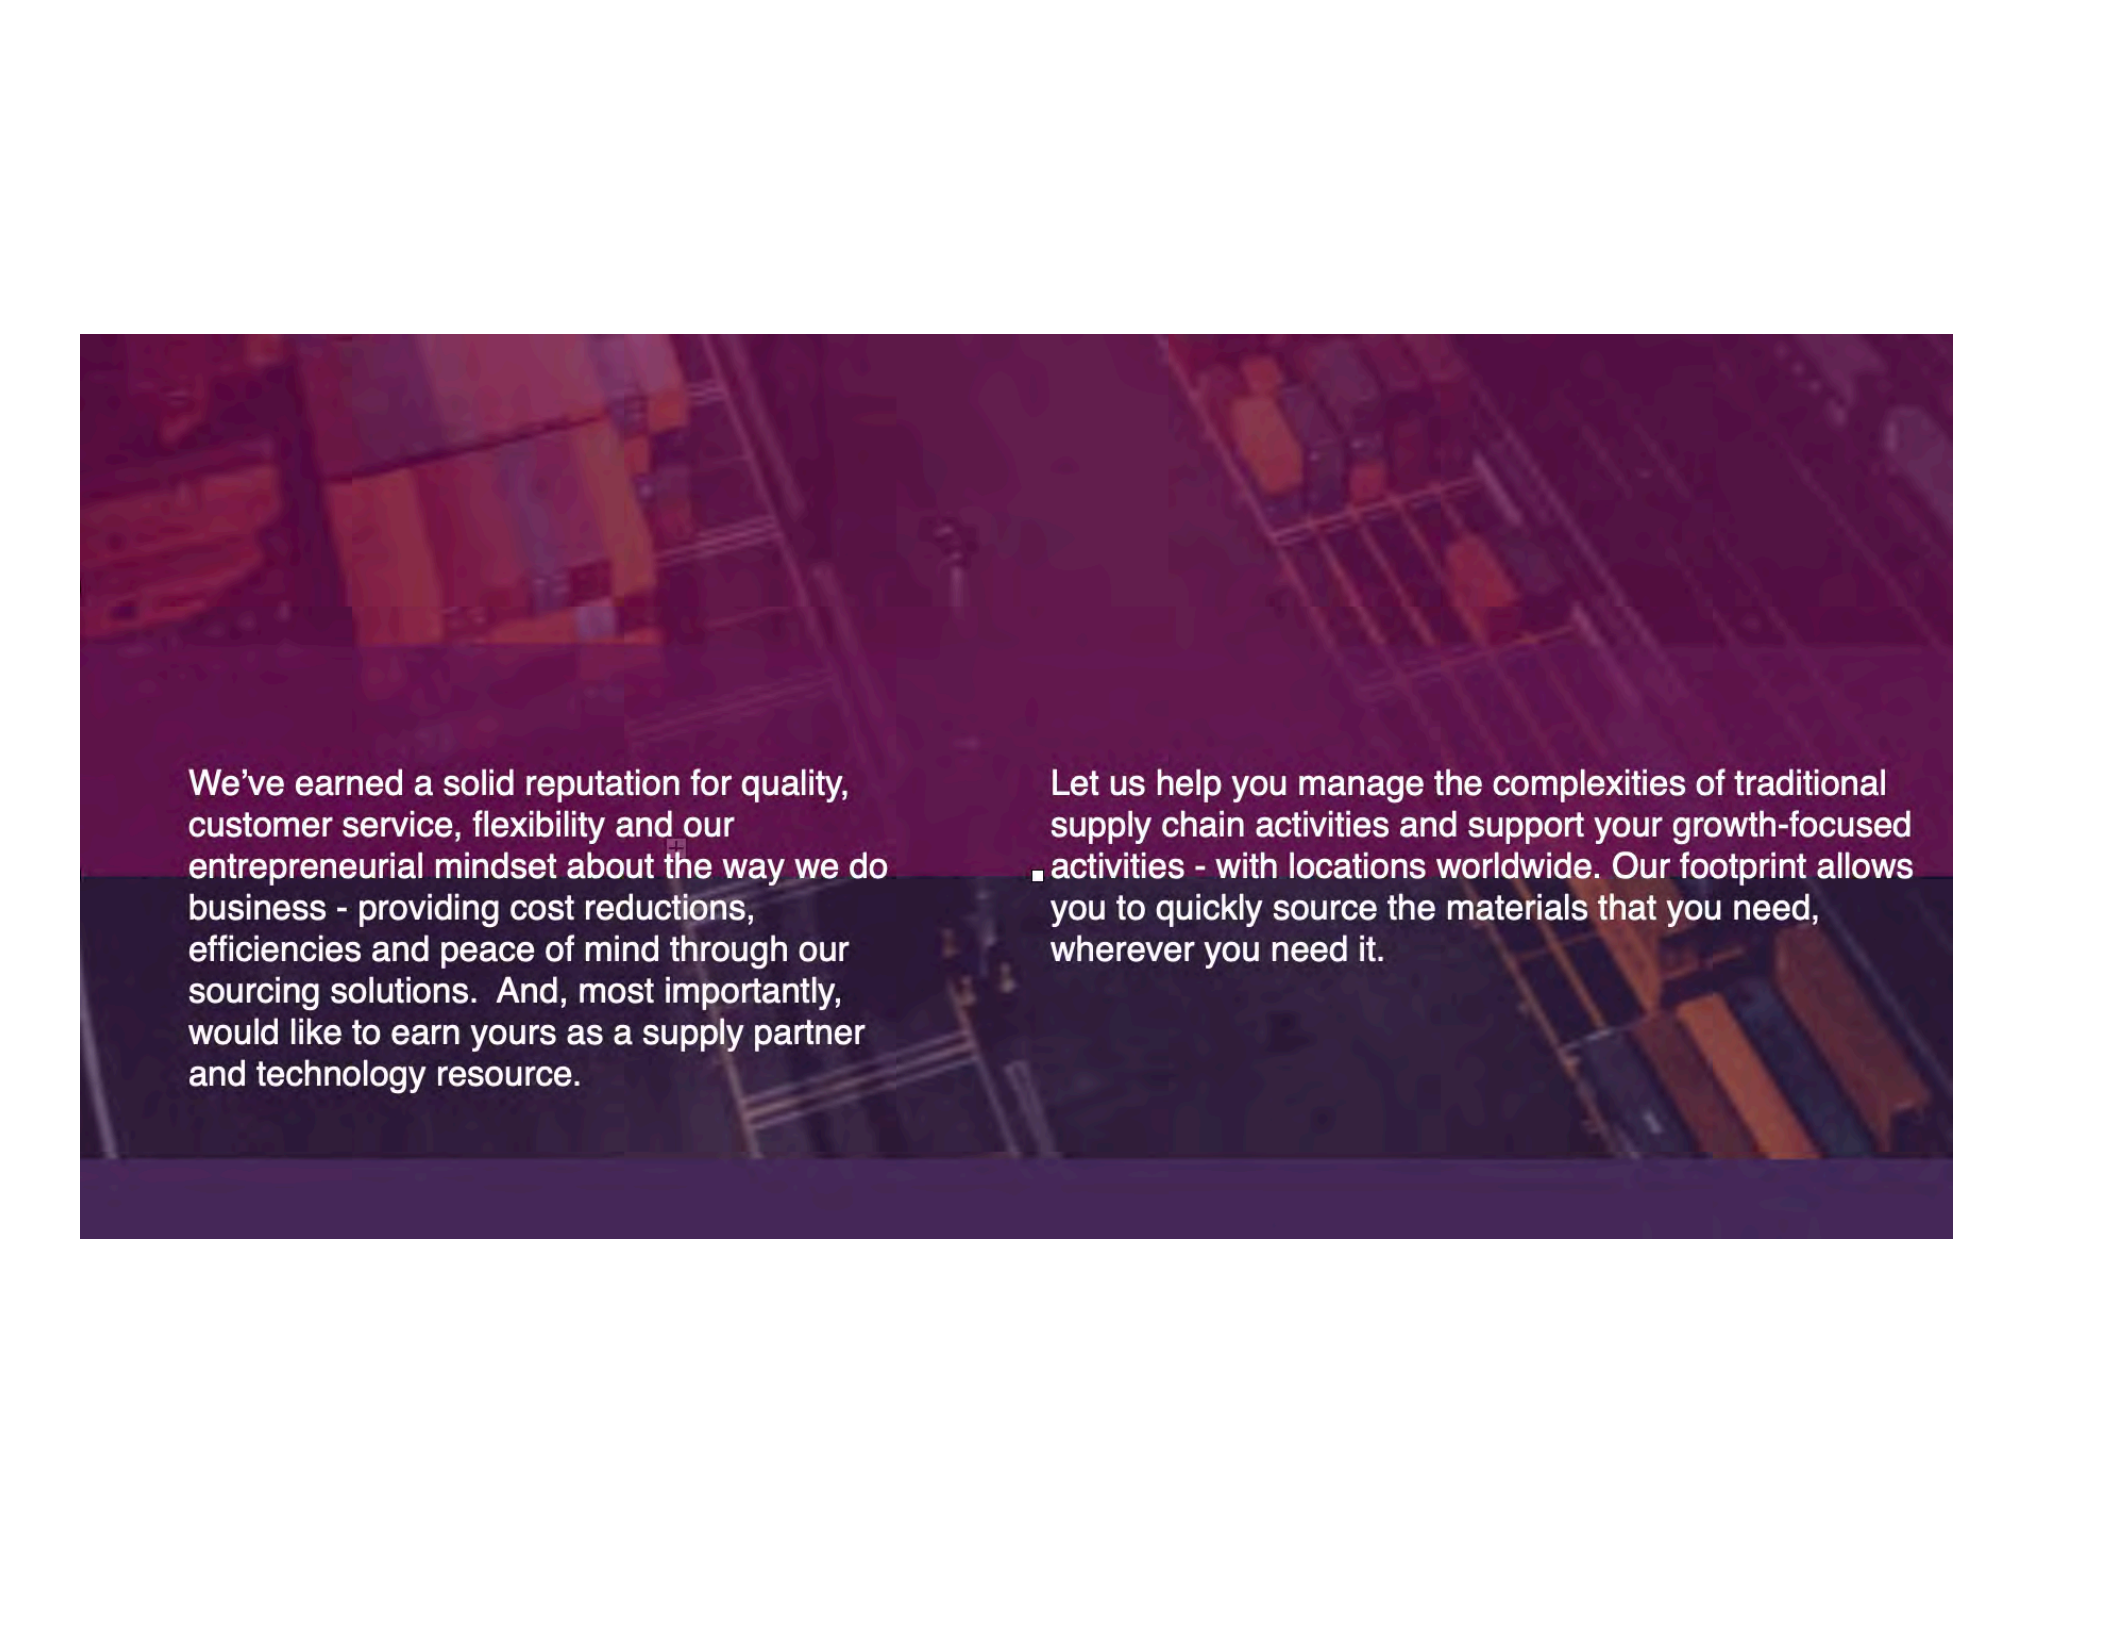

- Take over the responsibility of shipping various types of chemicals (including hazmat)
- Coordination and timely export of shipments
- Managing the administrative burden of import rules and regulations.
- Extensive experience with CBP procedures
- Firm knowledge of FDA, EPA, DEA requirements
- Strict compliance with hazmat DOT regulations

CUSTOM SERVICES - **MIXING, BLENDING, FORMULATION AND** **PACKAGING**

- Chemical repackaging and filling
- Toll blending / toll manufacturing
- Private labeling and branding
- Bulk Blending Solutions (converting powder to liquid products for commodities that need conversion for transport - tanker, iso, totes or drums).
- Consolidating

We've earned a solid reputation for quality, customer service, flexibility and our entrepreneurial mindset about the way we do business - providing cost reductions, efficiencies and peace of mind through our sourcing solutions. And, most importantly, would like to earn yours as a supply partner and technology resource.

Let us help you manage the complexities of traditional supply chain activities and support your growth-focused activities - with locations worldwide. Our footprint allows you to quickly source the materials that you need, wherever you need it.

THANK YOU

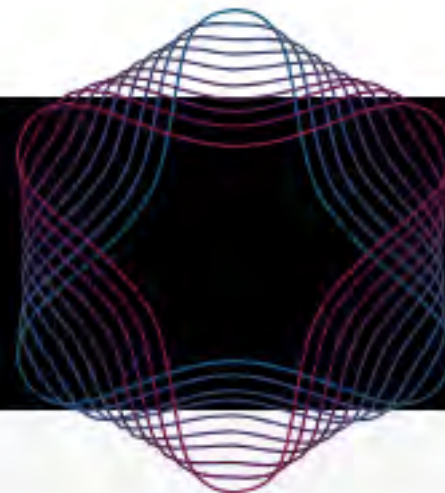

Jeff Koebrick
