

My projects must have are below:

- lead generation button where people can submit their information for us to reach out to them and schedule their free estimate,
- homepage,
- contact page,
- products and services page,
- user friendly,
- easy to navigate,
- it also must be engaging & eye popping
- appealing to the luxury market
- Please use colors; verdent green, dark green, ivory, and sunny yellow
- Include an about page that references our story; Matt is retired Army and he opened a fitness studio in 2017 with his wife Brittany. He has installed low voltage lighting in every home he lived in for many years and he has installed low voltage lighting for his friends and family over the years and decided to open his own business because he is passionate about beautifying outdoor landscapes and highlighting a properties full potential, not only in the day but at night as well all while providing safety and security for his clients. Having a deep respect for nature and landscaping, he wants to provide the same care and quality to each of his clients as he has in the fitness industry for decades. He believes small businesses are the back bone of America and he's excited to provide a level of service for a home that is all too often neglected in the design of a home.
