

We have attached the company logos. Please, use the White+Green for dark backgrounds and use the Blue+Green for White backgrounds

This is the cover of the presentation. Has to be similar to our Website cover in www.dataguru.cloud/en

Leading the future with Data and Intelligence

All texts along the presentation should be editable (not images), so that we can change them in the future easily

All front type in Google Sans

Logo + some Design to go along all slides in the presentation

Jordi Simón
Madrid, 11 Junio 2025

The future is now

"Generative AI has the potential to add trillions of dollars in value to the global economy and accelerate productivity growth for individuals, businesses, and the economy as a whole." — McKinsey & Company

Photo here
that relates
to phrase

We should have a
template for all the slides
(except cover and last
slide) including slide title,
some bottom design +
logo of dataguru in the
bottom-right

All fonts
are
"Google
Sans"

About Us

Data Analytics & AI for Nonconformists

Maybe a
cool
background
photo?

We are a leading Professional Services company specialized in the design and implementation of cutting edge technologies in Cloud, Data Analytics & AI.

What we do

This is just wireframes... we expect some improved design.

Agentic AI

AI Agents

Advanced Analytics & ML

Data Analytics & Visualization

The Agentic and AI Agents boxes with the same colors.

The Advanced Analytics & ML and Data Analytics & Visualization boxes with the same colors.

What we do

Talent

Activation

Agentic AI

Applications

Data Sources

Methodology

Technology

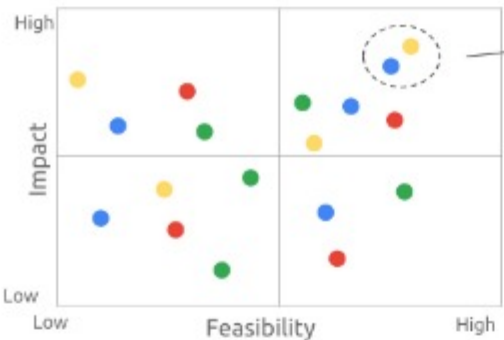

We include a reference slide in another presentation as an example of what we are looking for

This is an example. We should build something with improved design.

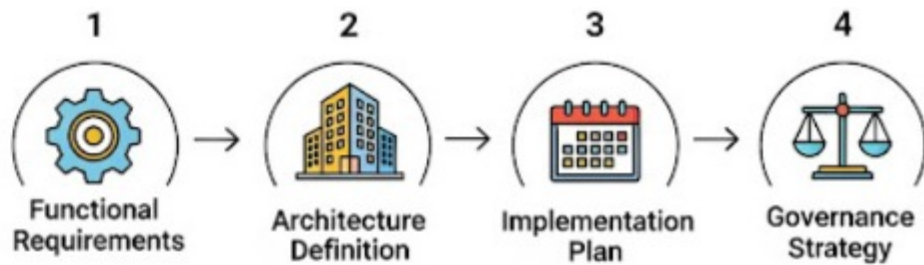

This is an example. This should look like a roadmap with four milestones (maybe a winding road)

- Agentic AI
- AI Agents
- Advanced Analytics & ML
- Data Analytics & Visualization

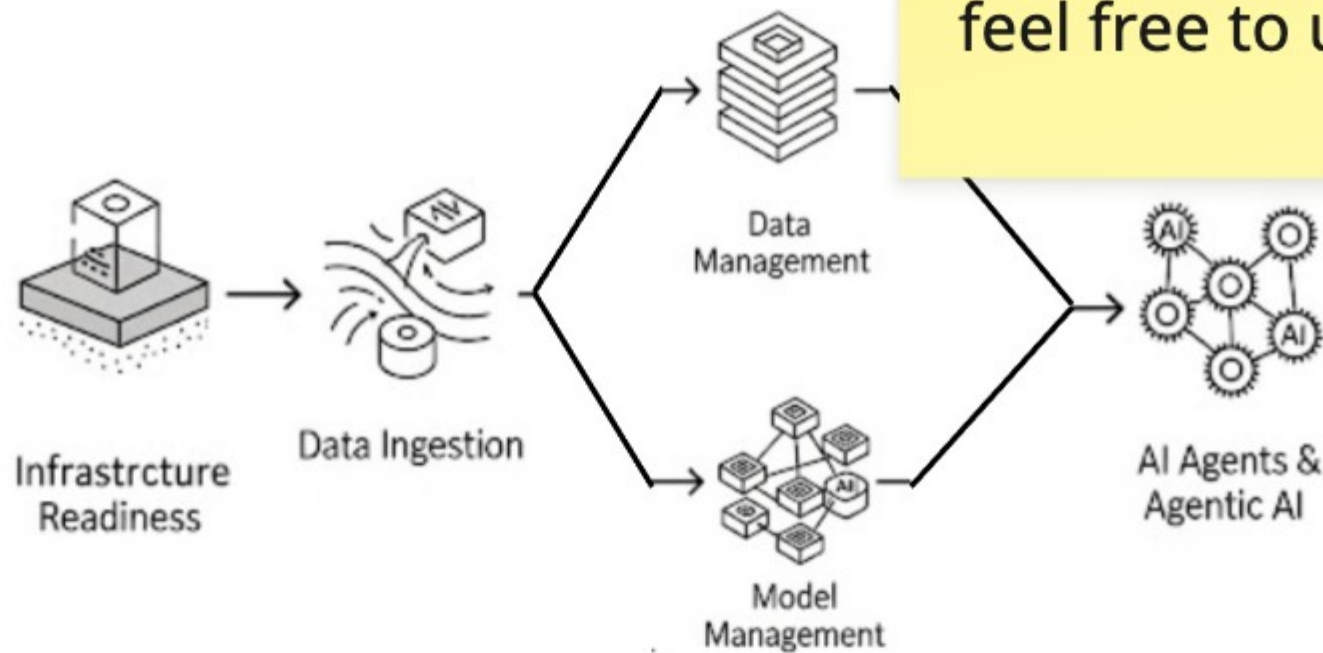

AI Discovery Workshop

AI Strategy & Design

AI Implementation

PLEASE, don't use these logos. All are only for explanation purpose. Please feel free to use/not use logos

AI Governance

Should say AI and not Data...

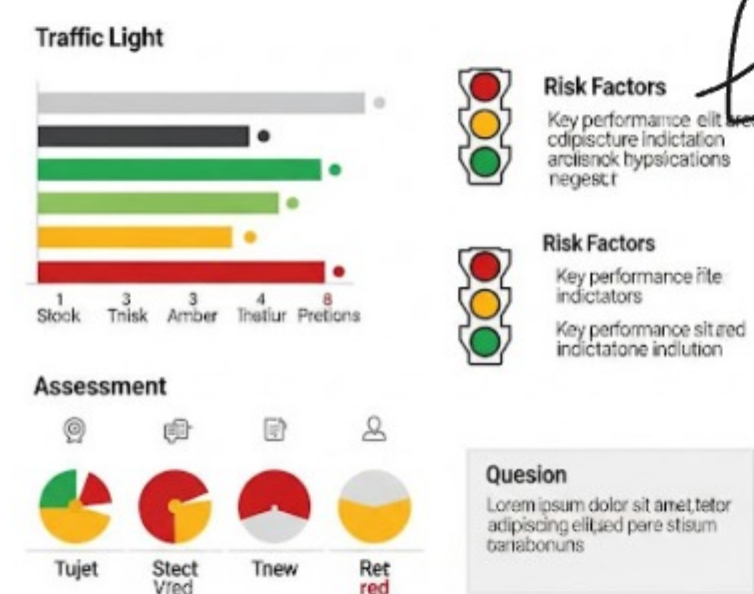

This is an example. We should build something with improved design.

Data Analytics

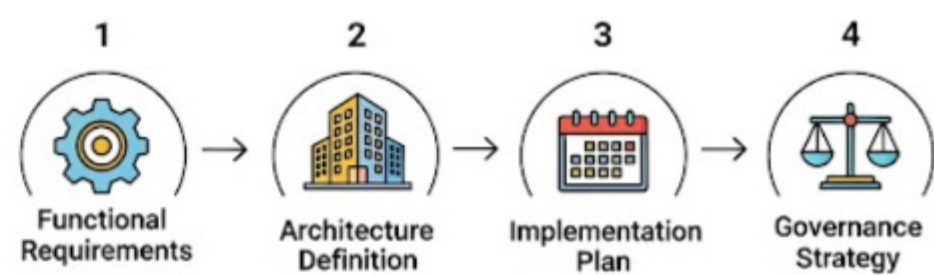

This is an example. We should build something with improved design.

This is an example. This should look like a roadmap with four milestones (maybe a winding road)

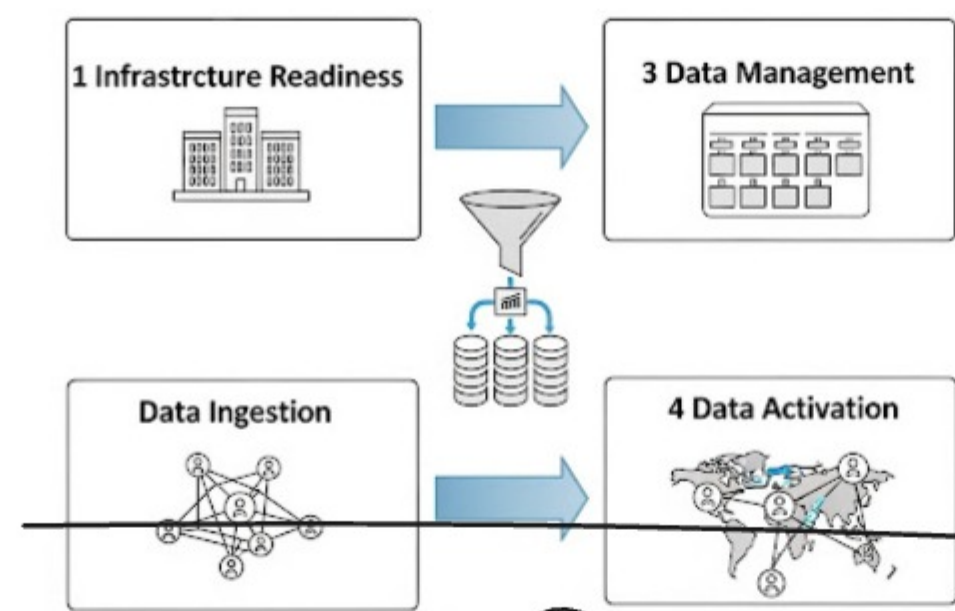

Data Analytics Assessment

Data Analytics Strategy & Design

Data Analytics Implementation

PLEASE, don't use these logos. All are only for explanation purpose. Please feel free to use/not use logos

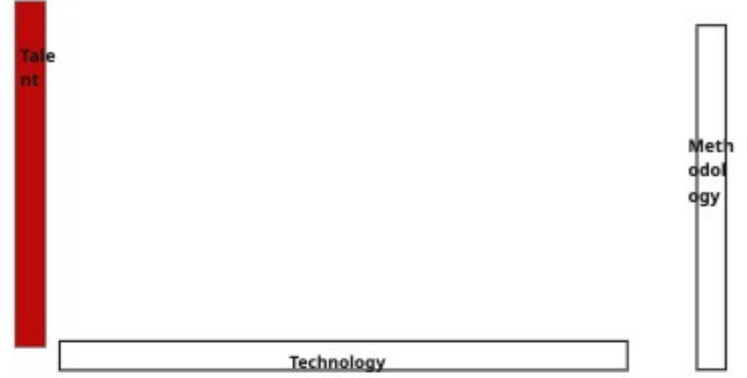

Data Analytics Governance

This is an example. We should build something with improved design.

Exceptional talent

This is just an example. Please, improve design

Work with highly motivated, trained, and committed industry professionals.

How do we make it happen

- Strict selection process
- Competitive pay for premier talent
- Exciting technologies and projects
- 100% certification target in 6 months
- 10% continuous learning investment (3x market average)
- Culture that draws in the best professionals

Why dataguru

Be impressed by our
Exceptional Results

Peace of mind with
an Expert Partner

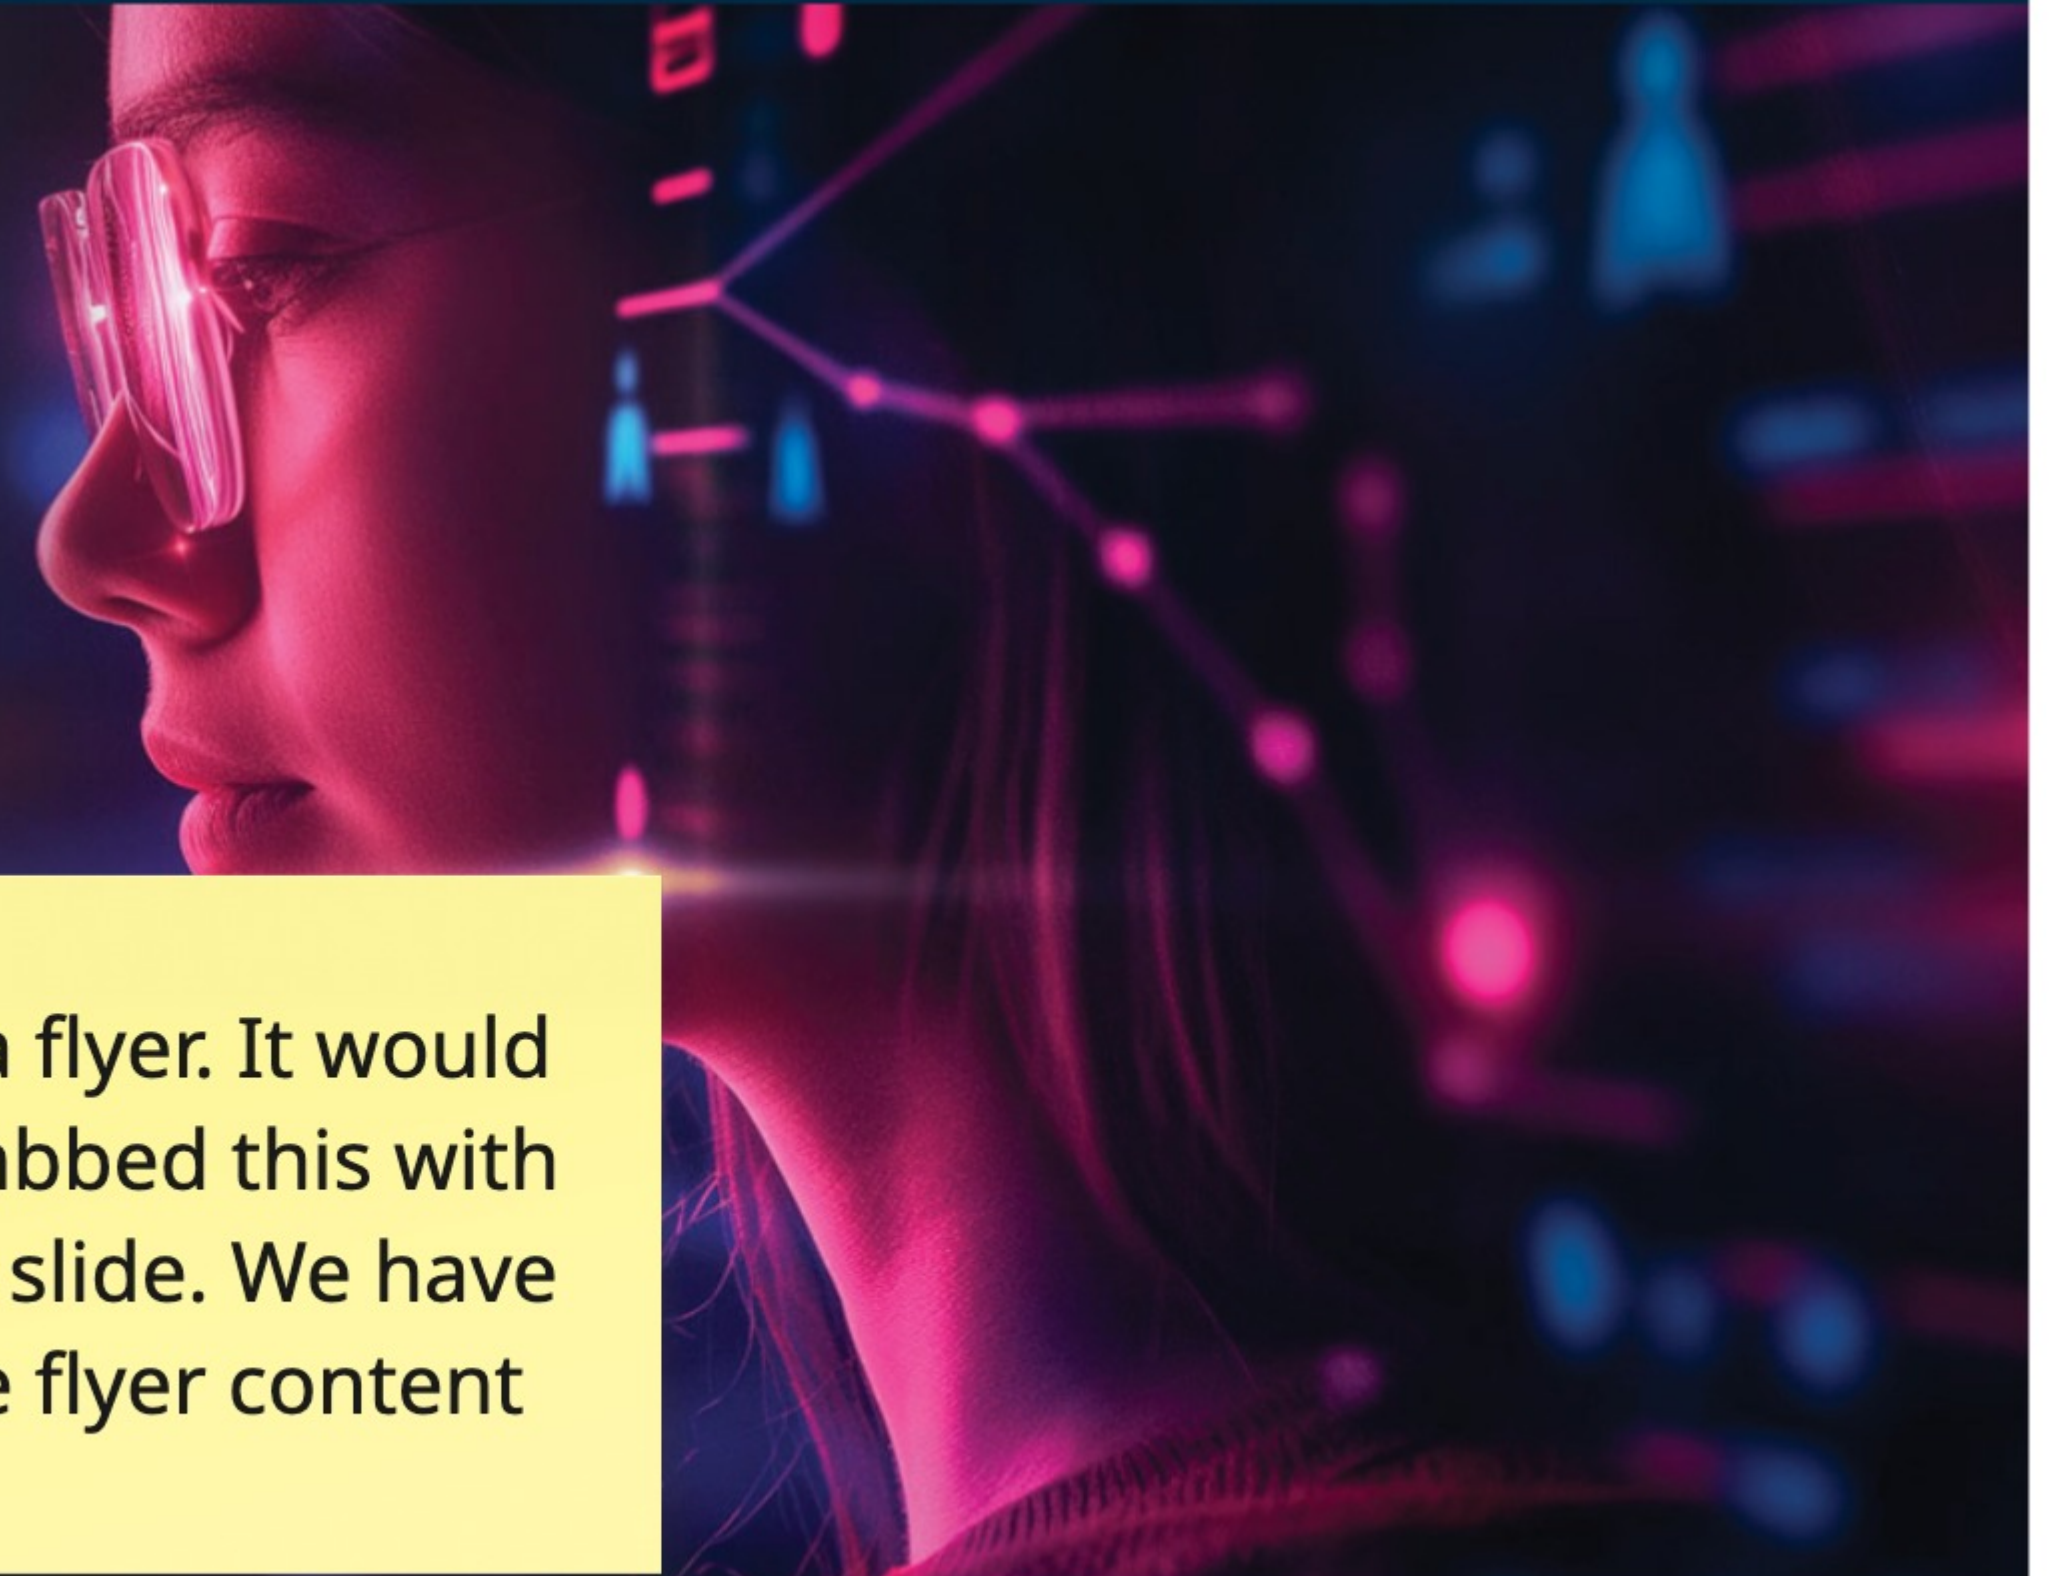

Enjoy Innovating
in a collaborative
and dynamic
environment

Have fun with us

More than half of companies believe
their providers don't fulfill on agreed terms,
leading to frustration, delays, and costs.

**At dataguru,
we deliver
our promises**

This is from a flyer. It would
be nice to embed this with
the template slide. We have
attached the flyer content

Next steps

AI Discovery Workshop

Ready to revolutionize your business with AI? Our workshop unveils the power of AI through inspiring success stories. We'll identify, prioritize and roadmap game-changing use cases tailored for you.

AI Strategy & Design

Lay the groundwork for your AI success with a solid strategy and a tailored solution design. At dataguru, we guide you from the discovery of your IT assets to the definition of an optimal AI architecture

We provide the strategic plan and detailed design you need to implement effective AI solutions, enabling you to automate complex processes using AI Agents & Intelligence Apps

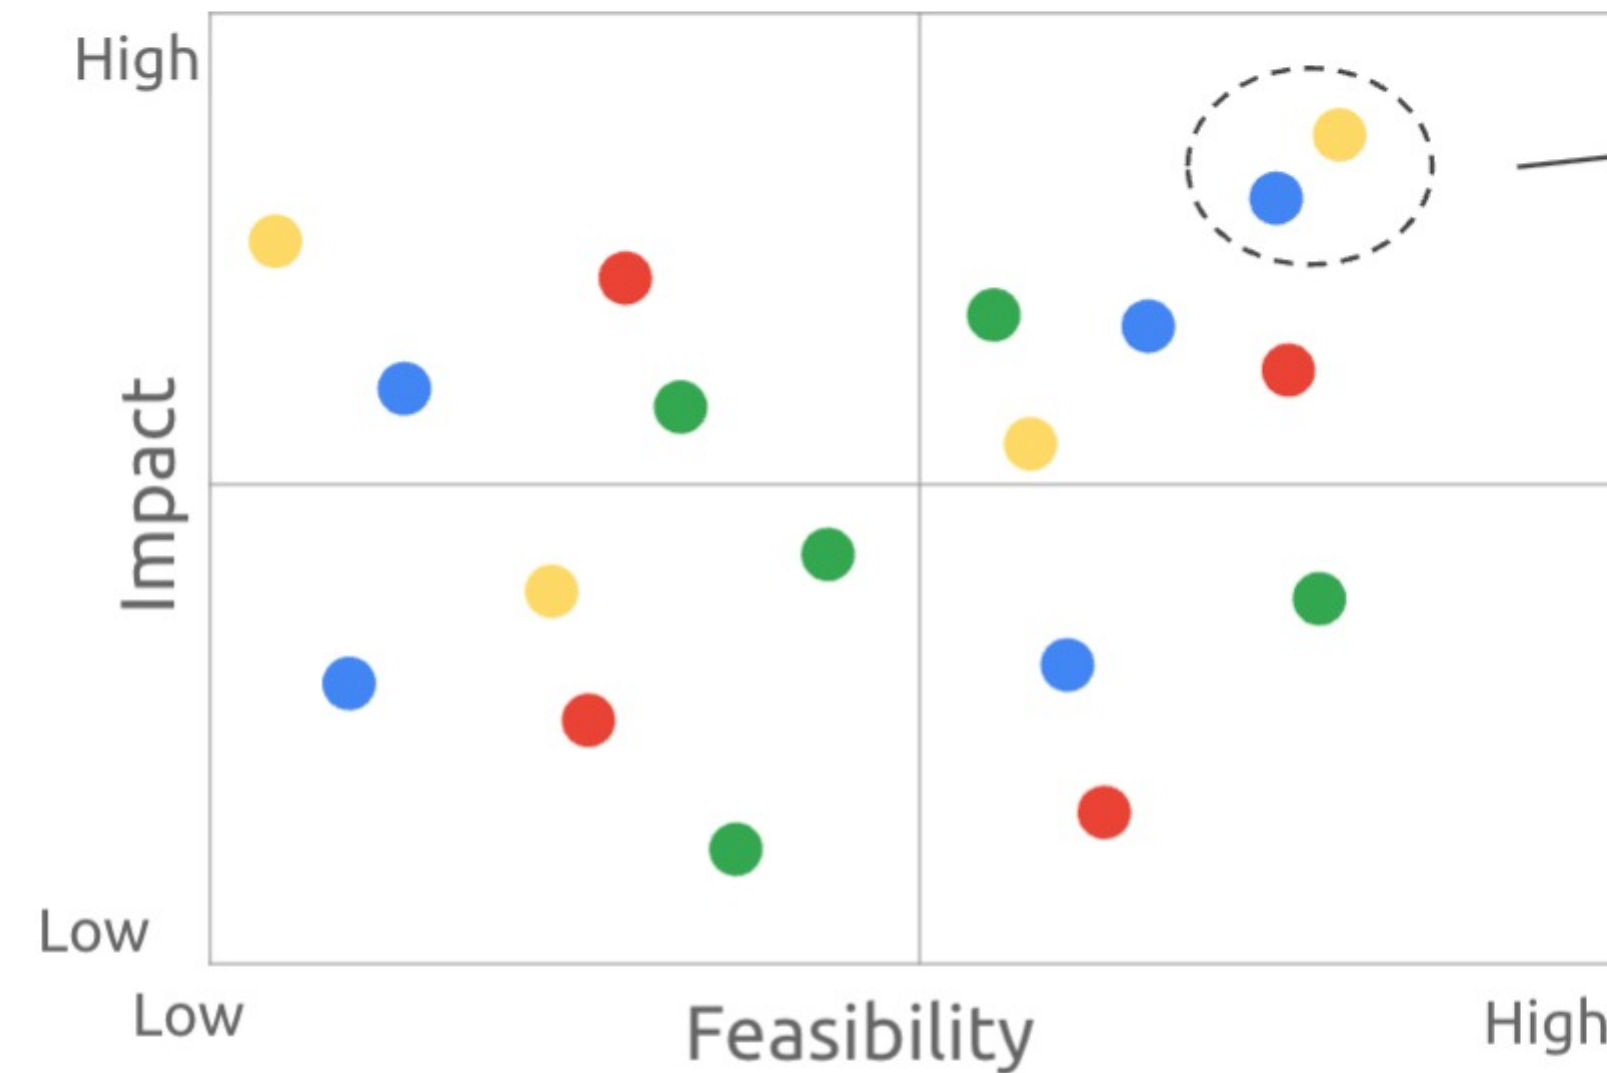

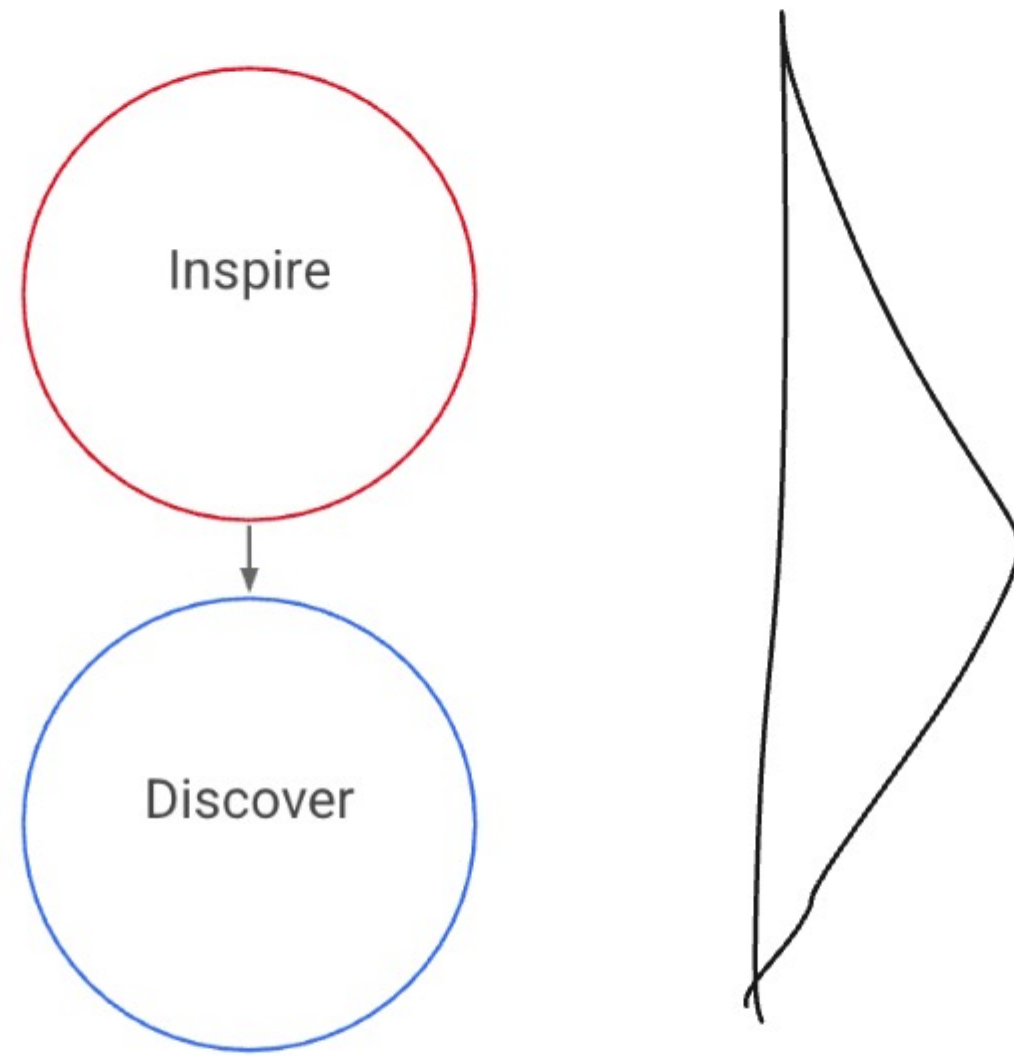

AI Quickstart Pilot

Ready to move beyond theoretical AI potential and see it in action? Our AI Quickstart Pilot is designed to rapidly test the technical feasibility of your most promising AI use cases.

We'll take a high-priority use case, quickly define its strategy and design, and then jump straight into building a working pilot. This means you can quickly validate the technology and understand its real-world application for your business, turning potential into tangible results.

The 3 boxes
should have the
same format.
