PHYSICIAN ASSISTANT

**Typhon sets the standard for easy-to-use,
cloud-based clinical education tracking.**

Intuitive

Experience a user-friendly interface that simplifies daily operations, data collection, and reporting.

Versatile

Tailor the system for your specific needs without waiting for us to make changes.

Affordable

We fit any budget with a modest annual subscription and one-time per-student pricing.

Validated

Academic research consistently verifies Typhon's high efficacy and reliability.

Supported

Our friendly and responsive customer support is included in your subscription at no extra cost.

Scalable

Our scalable design easily accommodates your program's growth year over year.

More than 1000 Programs Trust Typhon

Program Directors

Experience a user-friendly interface that simplifies daily operations, data collection, and reporting.

Clinical Coordinators

Easily manage the ever-growing list of site/preceptor affiliation agreements and appropriately schedule students.

Administrative Assistants

Access and manage the details of every student in your program, including licenses and immunization documents.

Faculty

Monitor the progress of student clinical experiences and ensure that the objectives of each course are achieved.

Preceptors

Evaluate students, approve clinical experiences, and update contact info as needed.

Students

Report clinical experiences, take evaluations, and build a portfolio to use when job hunting after graduation.

Each Typhon product includes 8 fully customizable core modules

Our core modules deliver comprehensive features and can be tailored to meet the unique needs of your program.

Clinical Tracking

Quickly and easily enter all clinical encounter information on a single page, track clinical encounter information, and run reports.

User & Site Databases

Manage the relevant details of each person in your system, and share information with students, faculty, and others as needed.

Evaluations & Surveys

Web-based evaluations are simple to create, edit, and administer to anyone, and results are available in real-time.

Competency Tracking

Monitor, assess, and document student competencies with customizable workflows, real-time dashboards, and robust reporting.

Document Management

Online coursework and document management allow faculty to easily review and comment on students' assignments. Programs can also keep track of important documents that need to be securely stored and shared.

Scheduling

Quickly build and maintain your students' calendars for classes, conferences, clinical rotations, and more.

Curriculum Mapping

Easily organize program and course objectives to align with program accreditation requirements.

Student Portfolio

Students can create and customize portfolio websites to showcase education, work history, case logs, and more.
