

## MANUAL GREASE GUNS

### PRESSOL PISTOL GRIP 500g

- Fill level & grease type visible
- High volume & high pressure setting options
- Light & sturdy
- Easy to use & store
- M 10 x 1 female coupler

### PRESSOL TWO HANDED GREASE GUN 500g

- Fill level & grease type visible
- Quick cartridge change, no bleeding required
- Bracket to store hose in position
- Made with long-lasting materials, zinc & polished steel
- G 1/8" NPT female coupler

### QUICK RELEASE COUPLER

- Works with 1/8" NPT and M10 x 1 fittings
- Works with all major brand battery grease guns.
- Includes washer to prevent leaks
- Small head diameter: 14.8mm

## OTHER GREASE

### BIODEGRADABLE GREASE

KAJO biodegradable grease range suitable for all industries. Providing a significant **60-80% decrease in carbon emissions**, alongside a commitment to maintaining the **highest product quality**.

### FOOD GRADE GREASE

Our **NSF H1 approved** food grade grease range is designed for use in **food and beverage production**. Superior lubrication and protection for machinery under high loads and temperatures, with excellent resistance to water, oxidation, and corrosion. Non-toxic, odourless, and tasteless to ensure **food safety while delivering long-lasting performance!**

## FASTER, CLEANER & MORE EFFICIENT GREASING

- ✓ Screw-in & mess free grease cartridge change
- ✓ 500g cartridges - 10% extra
- ✓ Use in 500g manual guns
- ✓ Use in battery grease guns with OxRock adapter

# 1/2 GREASE

## KAJO HD 800-2 TACKY

NLGI 2

### APPLY TO:

Low Speed Bearings

Heavy Duty Pin & Bushes

King Pins & U-Joints

### DESCRIPTION:

- Heavy Duty **Lithium-calcium complex** with polymers & tackifiers to avoid “squeeze out” from components under high loading conditions.
- Recommended for pin & bushes on mining, construction & agricultural equipment.

For high speed bearings consider KAJO LC 002

## KAJO LC 002

NLGI 2

Operating Temp: -30 to +160°C  
Dropping Point: 275°C

### APPLY TO:

Low-High Speed Bearings

Heavy Duty Pin & Bushes

Wheel & Electric Motor Bearings

### DESCRIPTION:

- **Lithium complex**, high temperature multi-purpose grease.
- Extreme pressure additives (EP 2).
- Recommended for high speed anti-friction bearings and any multi-purpose applications on equipment from all industries.

## KAJO LZR 2

NLGI 2

Operating Temp: -30 to +140°C  
Dropping Point: 190°C

### APPLY TO:

Low-Moderate Speed Bearings

Light-Moderate Duty Pin & Bushes

### DESCRIPTION:

- **Lithium soap**, multi-purpose, extreme pressure grease (EP 2).
- Recommended for light-moderate duty applications on automotive, agricultural & construction equipment.

For high speed bearings consider KAJO LC 002  
For heavy duty applications consider HD 800-2

# 2/2 GREASE

## KAJO CASX 2

NLGI 2

Operating Temp: -5 to +120°C  
Dropping Point: 300°C

### APPLY TO:

Low-High Speed Bearings

Heavy Duty Pin & Bushes

King Pins & U-Joints

### DESCRIPTION:

- **Calcium sulphonate complex** biodegradable grease.
- Top performance grease designed for use in harsh & extreme conditions including heat, water & extreme load.
- Recommended for equipment from all industries in environmentally sensitive areas.

## KAJO LC 002 + MOLY

NLGI 2

Operating Temp: -30 to +160°C  
Dropping Point: 270°C

### APPLY TO:

Low-Moderate Speed Bearings

Heavy Duty Pin & Bushes

Heavy Sliding, Shock or Impact Loading

### DESCRIPTION:

- **Lithium complex** with 3% **moly** solids, high temperature grease.
- Provides extra anti-wear protection on components that are less frequently greased.
- Suitable for machinery with specific requirement for grease fortified with moly.

For high speed bearings consider KAJO LC 002

## KAJO HAMMER PASTE

NLGI 2

Operating Temp: -20 to +1100°C

### APPLY TO:

Use with Manual & Battery Grease Guns

Automatic Lubrication Systems

### DESCRIPTION:

- **Lithium soap & solid lubricants** (copper, graphite & moly).
- Specialised grease for socket tools & bushes of hydraulic and pneumatic hammers/rock breakers.
