HERE'S HOW WE MAKE SECURITY MANAGEMENT

EASY AND EFFICIENT

Streamlined security staffing

We work directly with location managers to identify the right type and level of security for your business.

For each location in your company, we provide the best guards in the region – in both urban and rural areas, wherever you are in the U.S., Canada, and PR.

Once a streamlined plan is in place, we take the management off of your hands and oversee the daily operations.

Qualified guards

Every guard in our network is trained, certified and insured. Armed guards have thorough weapons instruction and law enforcement officials undergo full police department training procedures.

Guards check in within a geo-fenced area around a site using our mobile app – this allows us to monitor attendance and appearance in real-time.

Fast efficient management

Our 24/7/365 telephone help line allows you to reach knowledgeable, helpful representatives during and after regular business hours.
