

Andaman7

Date: 2025-09-17

Brief Document – Email Signature & Web Banner Update Andaman7 V6

1. Context

With the release of **Andaman7 version 6**, we want to highlight our two new flagship features:

- **Assessment Tools & Questionnaires** (validated self-assessments, WHO/ICOPE...)
- **Patient Summary** (FHIR IPS-compliant medical record overview, shareable)

As with previous releases, we want to:

1. **Update the Andaman7 email signature**
2. **Create a responsive Drupal web banner** that matches the signature visuals.
3. Update the banner / home page on our **social media** (linkedin, X,...)

The goal is to ensure **visual continuity** with the current V5 (AI) signature, while clearly showcasing the new V6 features. The visuals will appear on :

- Our signature
- Our website
- LinkedIn
- X

Where possible we would like ANIMATED GIFs (like our previous versions).

2. Current Signature & Previous Banner (V5)

- Current signature (V5): highlighting **A7=AI** with the message “Andaman7, now supercharged with AI” + **Update Now** button. This is an animated GIF (reload the page to see the animation).

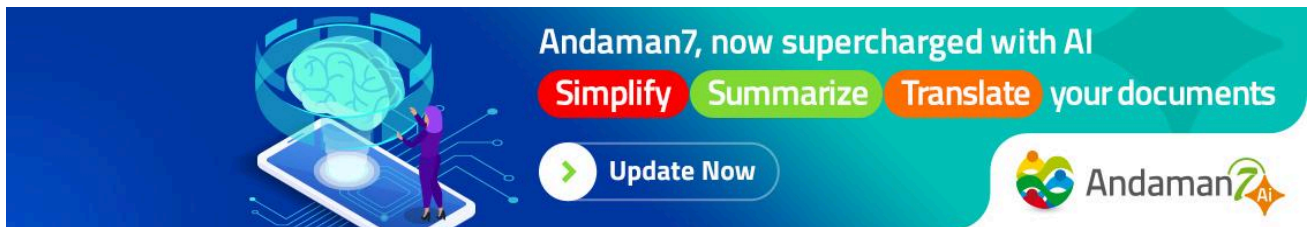

- Web banner (V5): in Drupal banner format, identical to the signature, but bigger.

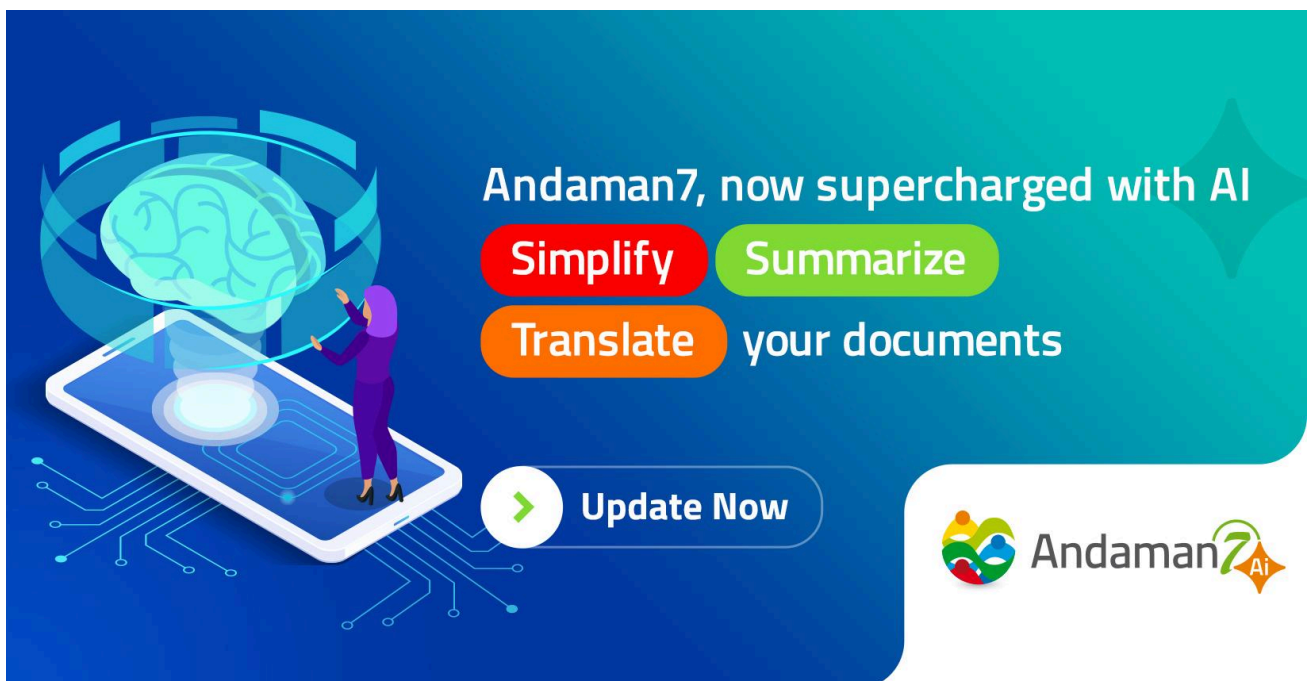

In context: <https://www.andaman7.com>

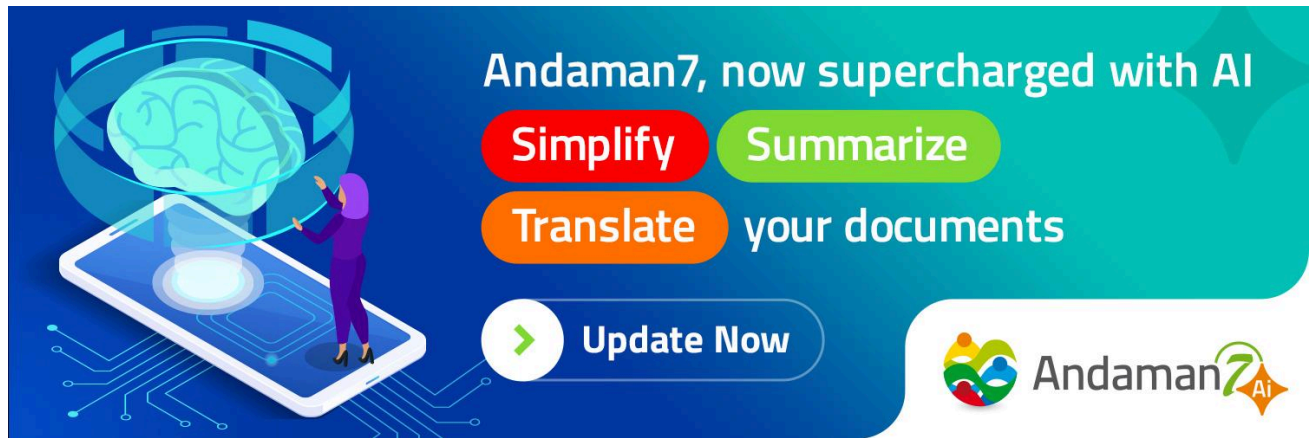

- Social media

In context : <https://www.linkedin.com/company/9200968>

In context : <https://www.facebook.com/Andaman7App>

In context : <https://x.com/andaman7>

👉 These visuals had an **Andaman7 blue gradient background**, A7 logo, a stylized smartphone, and clear messaging.

👉 The style was **modern, coherent, and dynamic** (animated GIF).

3. Our Requests for V6

We would like to keep the **same style and structure** as V5 (signature + banner), but update the content to reflect V6:

Proposed Text:

"Andaman7, version 6 released"

Subtext: "Assessment Tools (ICOPE) & Patient Summary (IPS)"

Visual elements:

- Stylized smartphone in perspective, as in V5 but a bit different.
- Two pictograms coming out of the smartphone:
 - A checklist (for Assessment Tools)
 - A summary document (for Patient Summary)
- Andaman7 logo (classic version, no AI variant). See <https://press.andaman7.com/>

Style:

- Andaman7 blue gradient background.
- Modern, clean, minimalistic design.
- Optional: animated version (animated GIF, as in V5).

CTA (Call to action):

Blue button **"Update Now"** (same as V5).

4. Technical Specifications

Email signature:

- Max width: **600 px**
- Height: usually **100–200 px** (flexible depending on layout)
- Format: PNG static (and GIF animated if possible)
- Optimized file size (<150 KB preferred)
- Responsive (desktop + mobile readable)

Drupal banner:

- Recommended width: **1200 px** (responsive, scalable up to 1920 px for large screens)
- Height: **300–350 px**
- Background adaptable to both desktop and mobile
- Same design as the signature for visual coherence
