BIOCRYSTAL SLEEPAD

SMART ADD FOR ACTIVE BED

YOU CANNOT SLEEP WELL
IF YOU ARE NOT FEELING GOOD-
**YOU CANNOT FEEL GOOD
IF YOU DO NOT SLEEP WELL**

Despite this fact, there are still many people who are not attaching enough importance to the place where they sleep. The bed is not just a place to lie down! We strongly believe your bed must become an oasis for good consistent sleep and a continuation of our daily desire for a healthier life...

“ONE STEP CAN BE ENOUGH TO ENSURE
YOUR BED MAKES A PROACTIVE
CONTRIBUTION TO ENSURING YOU
HAVE A BETTER AND HEALTHIER LIFE.”

Vesna Pavletić,

*Founder and CEO
Biocrystal Technologies*

Today more and more people are starting to think of ways to make an improvement in the **quality of their lives**.

People are becoming more aware of how to care for their health and that it cannot be left to others, they must take positive actions instead.

We know that we have to take a large part of the improvement role ourselves.

When we think about our wellbeing we need to take into consideration of what are we eating, also our daily lives today are stressful with the fast pace of life and the chronic lack of time we all have – this limits us to being able to dedicate more time to ourselves and our quest for a healthier life style.

We are however, become increasingly aware that we should take advantage of what little free time we have available to us – we also need to make sure our quest for a healthier life does not stop when we go to sleep.

The Solution to your healthier life is right here in front of you and even closer than you thought.

Transform your bed into an **active health bed** – by getting the chance to use the time you sleep to re-energise yourself and your body while you are sleeping.

By sleeping on the Biocrystal SleepPad you will for the first time in your life have the opportunity to completely relax and renew your bodies' health and energy levels.

BIOCRYSTAL[®] SLEEPAD POWER ADD FOR AN ACTIVE BED

The products (mattresses, mattress toppers and pillows) with the built-in unique **Biocrystal® SleepPad**, turns the bed into a place of active treatment **through the night** for a fully-energized life.

Biocrystal® SleepPad is the world's first supplement product for sleep that has an active role while we are sleeping, or just when you are lying down...

The product is designed so it can be applied, installed in almost all products intended for sleeping on (existing or newly designed)

IT IS SCIENTIFICALLY PROVEN THAT CONTINUAL PERMANENT USE
(SLEEPING ON A BED WITH **BIOCRYSTAL® SLEEPAD**) PROVIDES:

-better energy flow in the body

- better energy balance

- higher energy level

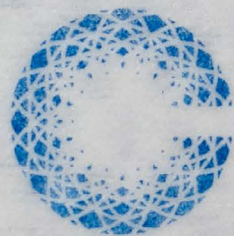

- better condition of the body as a whole

- higher activity of the brain waves

- adequate conditions for body's self-recovering process

BIOCRYSTAL[®]
TECHNOLOGIES

THERE IS NO SECRET - SMART TECHNOLOGY FOR A BETTER LIFE

BIOCRYSTAL® is **unique** - highly **efficient** and the **multipurpose** crystal mixture intended for the assistance in improvements in all the areas of your life.

Biocrystal® in essence are **16 crystals and minerals**, complemented with **gold and silver**, processed with unique and smart CsAMTM **technology**.

The aim of this formula is to **enhance your bodies'** energy, making you **feel rejuvenated** and alert for the day ahead.

Biocrystal® technology is especially suitable for people who want to improve their quality of life.

The carefully selected 16 types of crystals and minerals are carefully crushed up and mixed in a specific ratio. The fragmented and mixed crystals, together with the correct amount of gold and silver being added, whose primary role is to improve the properties and effects of crystals.

Gold as the best element to enhance the energy conductivity and therefore allows the full utilisation of the crystals energy and the **silver** with the role of being the crystals active cleaner.

BIOCRYSTAL® SLEEPAD

Like all things around us, every cell of the human body has its own natural vibration. Vibrations are a natural feature which assists cells perform one of their basic life functions - metabolism. With the proper metabolic levels, cells maintain their vital functions and enable smooth functioning of human organs and life functions.

Any change or delay in the cells vibration leads to disturbances in metabolic rate, and interferes with the normal functioning of

cells, and thus the functioning of the organs and life functions.

Changing the rhythm of vibration can slow down or even prevent the normal functioning of the cells, it then disrupts the smooth flow of energy, weakening the bodies' general condition and thus creating the potential centre for disease formation.

Crystals provide faster and better metabolism

– HOW IT WORKS

with their ability to detect, monitor and influence the vibrations inside the cells of the body, regulating their proper frequency and thus removing, in a completely natural way all the harmful substances from each cell and the whole body.

This leads the body to efficiently allow faster energy flow, restoring and enhancing overall energy levels and at the same time achieving higher functional levels.

With the positive impact of crystals, the body strengthens the immune system, resulting in a better chance for the body to resist attacks from outside (disease, infections, fatigue, pressure, stress ...) and thereby allowing the body to achieve a higher level of fitness, strengthening the immune system that will result in better resistance from attacks from the outside (disease, infections, fatigue, pressure, stress ...)

CRYSTALS HAVE A NATURAL ORIGIN

01

They come from the depths of the earth's crust, untouched parts of nature that has no impact outside. The crystals bring with them the cleanest form of energy that nature has to offer.

CRYSTALS ARE ALREADY IN USE AND IS WELL KNOWN AMONG EVERYONE:

02

Crystals have and are being used in many civilizations since ancient times. People discovered very early on of all the good and positive properties of crystals and their use in creating a better and improved environment for man.

CRYSTALS – HAVE THE BEST PROPERTIES FOR

Crystals and their properties have been highlighted (**Einstein**), and have provided evidence of their properties and capabilities in their applications w devices.

Crystals are one of the most stable forms of energy used in alternative treatments - but they are also

Their use depends on their uncompromising precision where there is a priority for their efficiency and results but also for people.

CRYSTALS HAVE ALREADY
DEMONSTRATED THEIR
FULL EFFECTIVENESS;

Many of the positive properties of crystals have long been known and the crystals are shown their full capabilities in their application and use in high technology safety critical circuits where maximum accuracy is required.

CRYSTALS HAVE BEEN
**PROVEN TO HAVE AN
ACTIVE INFLUENCE
ON PERSON'S WELL-BEING.**

Testing was performed in 2011, with the device BICOM, showing that only 30 nights of sleeping on a bed with built in BioCrystal technology/formula resulting in an improving overall bio potential and energy level of 36.4%.

« SCIENTIFIC

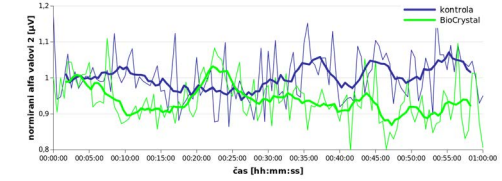

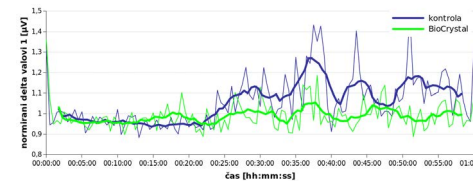

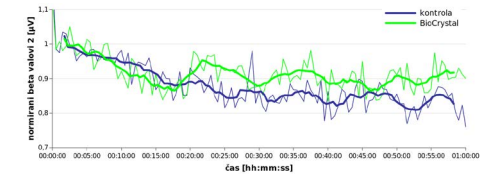

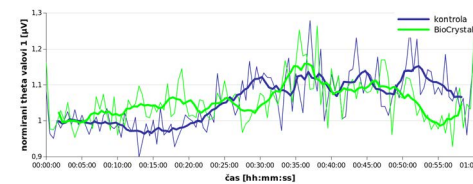

At The **INSTITUTE FOR BIOELECTROMAGNETICS AND NEW BIOLOGY (EU, 2014.)** the testing and measurement of brain waves and other physiological parameters (breathing, temperature of the body and skin conductance) during the daily use of Biocrystal® (only for the one hour), the testing was performed with an EEG device, and the results showed:

Biocrystal® SleepPad™ padding positively affected the person using it, **making them more refreshed and more relaxed,** which is also demonstrated by some of the resulting physiological parameters:

- the trending in a decrease of alpha and delta waves
- an increase of beta waves
- an increase of theta waves

There was also notable differences in some of the other physiological parameters:

- lower respiration frequency and depth
- changes in temperature – temperature swings
- decrease on skin conductance

Graphs show different brain wave activity while lying on a bed without Biocrystal and while lying on a bed with Biocrystal

DANIELLE BROWN

*archer, double Paralympic
gold medalist*

"After only a few days of trying Biocrystal® topper I was amazed at the results! It is extremely comfortable and I have been waking up with more energy and less ache after a full days training."

GORAN IVANIŠEVIĆ

*Croatian tennis player,
Wimbledon winner*

"The Biocrystal® topper solved my problems – I wake up rested, full of energy and strength for a new day and I feel as I could win at Wimbledon again!"

MATTHIAS DOLDERER

Red Bull air racer

"Ever since I sleep on Biocrystal® topper, I feel more concentrated then ever, and it affects my better performance on the sky."

KAREN DRAKE

*member of British Cycling GB squad,
Paralympic silver medalist*

"I feel well rested and that I have good quality sleep when I use the Biocrystal topper, which is important for my body's recovery particularly in periods of intense training"

CLAIRE CASHMORE

*three time Paralympian and
six time medal winner*

For an athlete, quality sleep is a vital part of achieving success within your sport. Sleeping on a Biocrystal® ensures that this sleep quality can be achieved day in and day out."

YOUR PRODUCTS ARE INTENDED FOR AN
IMPROVED BEST COMFORTABLE SLEEP AND WITH
BIOCRYSTAL® SLEEPAD INSIDE THE BED
OR PILLOW THIS RESULTS IN THE IMPROVEMENT FOR AN
ACTIVE OVERALL TREATMENT DURING THE SLEEP CYCLE.

OUR TECHNOLOGY DRIVES YOU FORWARD

BIOCRYSTAL[®] SLEEPAD benefits are:

- *Testing proved high levels of efficiency;*
- *Simple and inexpensive to implement in existing products without having to change the design or construction;*
- *Ease of use in developing new products concepts and usage;*
- *A unique product creating a competitive advantage for you in the market;*
- *Sell to existing and new customers - expands the target population;*
- *Totally safe - without any side effects;*
- *No contraindications - applicable for all regardless of sex, age, and general health of the organism.*

BioCrystal delivers highly efficient products for a positive active sleep cycle – **Biocrystal[®] Sleepad** are going to be:

- *High quality product;*
- *Product with added value;*
- *Unique and innovative;*
- *Different from competition;*
- *More profitable;*
