

Atlanta's Local Honey

Bees kept in Cobb, Cherokee, DeKalb, Douglas,
Forsyth, Gwinnett, Hall & Jackson Counties.

Sustainable Beekeeping

* Partnering with local farmers and landowners we spread our bees out over many square miles, keeping fewer bees at more locations. Although much more time consuming and expensive, it allows the pollinators to benefit more of the environment and ensures them more abundant natural food. This eliminates the need to feed cane sugar or high fructose corn syrups which results in healthier bees and purer honey, not contaminated with syrup.

* We will never sacrifice the health of the bees or the quality of their honey for profit. Never!

* We sell honey from our bees only.

* Do not feed to infants under 1 year old.
