

Clean, feminine and elegant card, with French chic look & feel.

Colors – based on business card colors.

Here are some cards stating what I specifically liked about each:

I liked when the background on the back of the card wasn't plain - but had damask pattern incorporating two tones of same color.

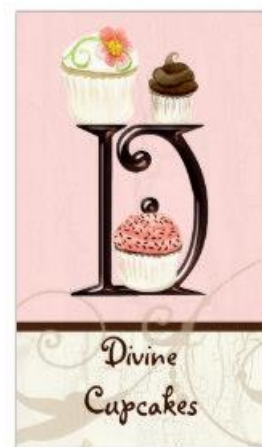

I liked the horizontal pink horizontal line incorporated with white

Our logo has its own shape so there's no need for a frame

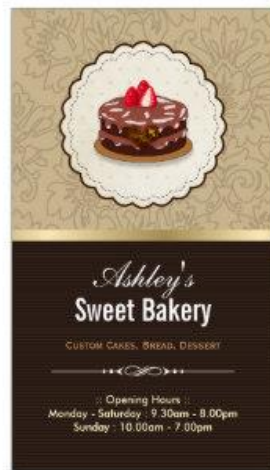

Loved the pink-brown combination, loved the spiral graphic at bottom.

Didn't like cupcakes though

Loved the cake illustration with the golden lines

Loved the thin gold separating line at bottom.
