

Tired of all the Promises from Oil & Gas Brokers?

Call Today: (877) 243-1243

Finally! A real solution that works

Bid My Minerals was started by a local land owner group that simply got fed up with getting the run around from mineral brokers stating they could get them "TOP DOLLAR" for their oil and gas rights.

Bid My Minerals has developed a competitive bidding system that will connect you with our pre-screened buyer network. This bidding system allows our buyer network to place direct bids on your oil and gas rights. In a competitive bidding environment the highest price wins, ultimately giving you - the owner - the maximum price available.

Please contact us today and find out how this proven system can work for you!!
