This is a layout for a single review. This template will be used for all the reviews on the review page, it is not a separate page.

1

Tag cloud will show ALL services for unclaimed vendors, but if a vendor claims and adds services then the tag cloud will only show the services the vendor adds manually.

2

Only show the sub-categories. We will need to update the text for some that don't make sense stand-alone

3

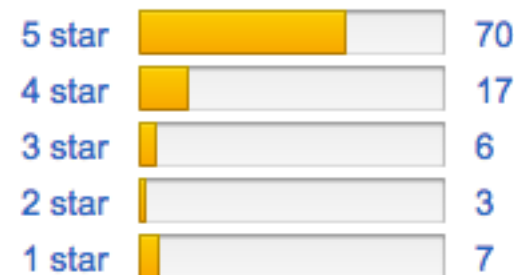

Link-bar switches to mobile drop-down menu on small devices, see mobile response of the current site. It switches to left hand drop down menu for navigation.

4

Review page filter bar - this will be the same as the existing reviews tab filter bar: <https://www.vendop.com/vendor/expedite-precision-works/reviews/>

5

This is a 'star histogram' chart, see Amazon's:
