* Rescue Alerts is a Proud Member of the Better Business Bureau

CELL PHONES AREN'T THE ANSWER

- Cell phones have an unreliable signal.
- Cell phones aren't water proof and can't be taken into the tub or shower.
- Cell phones need constant charging.
- Heart attack / stroke victims usually can't speak! So 911 will have no way of knowing your address.
- Cell phones can be very expensive!
- Cell phone companies usually lock you into long term contracts.
- Cell phones usually aren't carried by a person while in their home.
