

WHO IS AT RISK

- One out of three Americans age 65 or older fall at least once a year. The chances of surviving a fall are six times greater if you are found within one hour.
- Every minute that a stroke victim goes unattended, the chance of permanent disability or death increases dramatically.
- 350,000 Americans die from heart attacks each year because they don't get help immediately.
- 3 million Americans sustain disabling injuries in or around their home each year.

● IF YOU SPEND TIME ALONE!

An emergency can happen to anyone at anytime! If you're unable to reach a phone, it could be hours or days before needed attention is received. With a medical alert system, police and fire personnel as well as your friends and family are just the push of a button away.
