

Links used in the Home Page

The Goal is to just provide a simple home page with a clean look. Quick links for Home, About Us, Contact Us, Join email List, Our Vision and Our Office.

The main function of the home page is to guide client to one of our 4, sport specific websites. This is just a home page project. After I see how this all works we do plan to update the other websites (probably unique not look alike) and other related projects including shopping cart, online registration, ect.

Our Vision - Our vision at Desert Foothills Athletic Club is to promote and develop excellence in youth sports based on skill, sportsmanship, values, and player character. Our programs aim to provide an environment for natural player development that prepares them for life experiences, both on and off the field.

We focus on a uniform sports philosophy throughout the club that emphasizes growth through positive reinforcement resulting in players achieving his/her fullest potential. We do not look for the next victory to measure our success, but in the total learning experience for each player, realizing that the team is much stronger than an individual.

Our Office – We are getting ready to move into our first office. We don't have anything yet but we can make a generic office page <http://dfacsports.com/office.html> and will probably include construction photos and updated construction info.
