

I need a logo that is a combination of a tree and a river. These are examples the logo needs to be based off of these 2 logos, but combined. Below are an example of a tree and a river that I would like it to be modeled from.

#### **TREE**

**The tree should be inspired from an oak tree.**

Trunk: I like the curvy trunk. Open to seeing some more straight options.

Leaves: I like the illustrated look, I want more variation in leaves (maybe size, maybe shape).

#### **RIVER**

The bold curvy shape is the most important element. I can see using something like this, but wrapping around one side of the tree.

USE SOMETHING SIMILAR TO THIS COLOR FOR THE TREE

I'M OPEN TO OPTIONS FOR THE COLOR OF THE RIVER
