## Dual Cooling Technology

### -86°C Ultra-low Freezers

The new ultra-low freezer features an innovative dual cooling technology allowing the freezer to operate continuously within the -65°C range in the unlikely event of one compressor failure.

Providing you with a peace of mind for maximum sample integrity.

- High efficiency insulation (VIP Plus) maximises interior volume
- Two independent refrigeration system in one -86°C
- EcoMode reduces energy consumption by as much as 15%

Go to [www.panasonic.net/healthcare/biomedical/products](http://www.panasonic.net/healthcare/biomedical/products) for more information on ultra-low freezers.
