## 1. Bunny designs we love

---

[This is a cool way to think of a bunny character]

[love this one]

[love this one too]

[love this = very simple] It would be cool to combine this guy with a mobile phone signal symbol coming off his ear: something like:

[The blue colour scheme, the red and white colour scheme or the white and grey could be cool].

It would also be cool to this guy running fast (see section two of this document for speedy motion

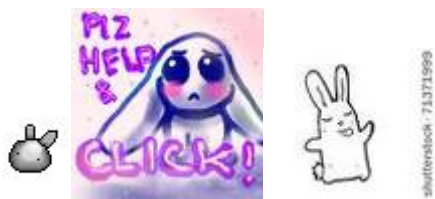

inspiration) 

[love this body – would be cool to see him with a mobile phone]

[ This guy is super cute] We would love to see him running.

## 2. We like the speed shown in these (but not the character)

We like the speed shown in these (but not the actual bunny character)

And the speed shown in this.
