## Details

This is NOT a corporate logo. This is a symbol

I'm looking for something simple yet meaningful and maybe even slightly dark/morbid  
Image it positioned as a belt buckle or in the centre of the chest of a superhero!

A Symbol that reflects the following.

A complete understanding all things and the relationships between all things (Think "Systems Thinking" [http://en.wikipedia.org/wiki/Systems\\_thinking](http://en.wikipedia.org/wiki/Systems_thinking))

"Qi" is frequently translated as "natural energy", "life force", or "energy flow". Qi is the central underlying principle in traditional Chinese medicine and martial arts. The literal translation of "qi" is "breath", "air".

Demonstrations of qi or ki are popular in some martial arts and may include the immovable body, the unraisable body, the unbendable arm, and other feats of power. Some of these feats can alternatively be explained using biomechanics and physics.

Some words to consider when coming up with your design:

Sentient	Courage
Balance	Ability
Confident	Beneficence
Aware	Fluid
Insight	System
Reason	Connection
Perceive	Connected
Think	Force

I would like the artist to explain why they believe they have captured the essence of "A complete understanding all things and the relationships between all things".

Here are some of the symbols & emblems I really like and I would like artists to take inspiration from:
