

**> Analyze >> Develop >>> Deliver**

**We are a professional consulting, financing and investment firm operating in the fields of:**

- > Project Development**
- > Management Consulting**
- > Investment Management**
- > Finance Solutions**

## **>> Project Development**

**Sometimes a project with high potential has to be developed before its economic value becomes apparent.**

**In such situations, we participate financially in the project and commit ourselves as entrepreneurs together with the owners.**

**We also take care of project management.**

## >> Management Consulting

**We elaborate solutions together with our customers and business partners by assisting owners and top management in structured decision making.**

**We work goal-oriented following the principle:**

**>Analysis >> Solutions >>> Results.**

**Our consulting team members do all have many years of experience from previous assignments at leading international management consulting companies and are familiar with methodologies used in management consulting. We complete the team of consultants with the appropriate subject matter experts.**

## >> Investment Management

**Cominvestment has a clear business-like approach to investments. We only engage in those projects or companies with which we have a strong relationship.**

**That is why we are also willing to take an entrepreneurial risk in the companies we invest in. We participate with our own capital and assume functions in the company's management.**

**Cominvestment currently holds shares in seven SMEs; four of these to 100%. Participation is on equal terms, and two of the companies we are minority shareholders.**

## >> Finance Solutions

**Financing growth opportunities sometimes calls for an entrepreneurial perspective, which is often not found in the traditional banking world.**

**That is why we have committed ourselves to developing financing solutions for unconventional requirements. To do so, we often work with partners with complementary subject matter expertise and geographical coverage.**

**This gives us the flexibility to create innovative solutions – solutions that meet our clients' special needs.**

# **> Analyze >> Develop >>> Deliver**

**We are entrepreneurs.**

- > We are committed to get things done.**
- > We work closely with the client side by side.**
- > We apply structured methods of reasoning.**
- > We look at the problem from various angles.**
- > We are not afraid of delivering unconventional solutions.**
- > We analyze situations, develop solutions and implement results.**
