

IDEA 1

This is a logo I found That is nice. I really like the shoe idea as his feathers. i think the head could look a little less cartoon like but yet still very simple Also the ribbon at the bottom is to rigid. The shoe feathers are spot on but the turkey and ribbon below could be made to be less cartoony and more sleek.

IDEA 2

This logo incorporates a turkey imposed onto a shield with a ribbon across the front.

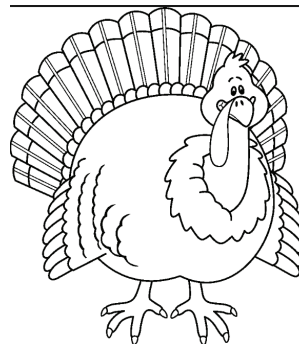

IDEA 3

Traditional track shoe with wings. Remove wings and replace with turkey wing idea in an abstract manner and make into turkey running shoe as shown
