

zippie®

ZONE™

Where's your ZONE?

The Zippie ZONE is an ultra-lightweight, fully customisable, paediatric rigid chair with great options including a flip-up footrest, sideguards with built-in hublock access, abducted front frame and inset backrest. The ZONE ergonomically fits some of the smallest children, allowing the greatest wheel access for enhanced mobility, with built-in growth capability.

Light and Efficient

Ultra lightweight:

- 10" X 10" configuration, weighs as little as 6.35 kg.

Compact Efficiency:

- 7000 series aluminium and Shapeloc Technology create strength, while ensuring lowest possible weight

Growth and Adjustments

Growth Capability:

- 3" of built-in frame depth adjustment
- 2" seat sling depth adjustment
- Frame width growth is as simple as 4 tubes (seat, back, camber and footrest)

Simple Adjustability:

- Backrest and axle system adjust together and maintain centre-of-gravity to backrest position
- Centre-of-gravity adjusts independently in 1" increments up to +2.25"

Easy and Cool

User Accessibility:

- Flared front seat and inset backrest to accommodate small kids and provide better access to the wheels for propulsion
- Wheel lock in sideguard is easier to reach for the rider, and one lever actuates both wheels
- Hublock option on the seat rail– release button positioned out of the way when pushing
- Flip-up angle adjustable footrest is also an option for easy transfers in and out of the chair

Cool Factor:

- 19 frame colour options, including Glow, Root Beer and Kolorfusion
- 7 anodized colour package options
- Zippie spoke guard design
