## **Investing in the right people is good business**

As an employer you want the best candidates to join you.  
And a pool of talented candidates ready for the next opportunity

BUT

Are you constrained by time in processing far too many applications for the one job?  
Are you spending too much money in the process?

Image of a company executive (dark skinned female) with a pile of job applications stacked on  
her desk

**EMPLOYFY (LOGO)**  
*Recruitment simplified*

Why using Employfy is so great.....

**Access management**

Set team members to manage only specific jobs and candidates.

**Job advertising**

Create a company page and advertise your job vacancies.

**Importing applications**

Using a unique email address for every job, all applications will come directly into your dashboard.

**Pre-screening assessment**

Create your own skills-based tests to help filter candidates.

**Video interviewing**

Save time by utilising our video technology to interview candidates. Share video profiles.

**Candidates**

Add, upload or source candidates then assign comments, tags and ratings to them. Mass email candidates. Instantly send rejection letters.

**Candidate profile sharing**

Share candidate profiles externally

**Talent pool**

Organise candidates into talent pools and import them into jobs as applications.

## **Reports**

Generate reports for your management or board
