

How to get LEGO® SERIOUS PLAY®

Trained in both the methodology and application of LEGO® SERIOUS PLAY® by former employee and master trainer Robert Rasmussen, Inflection Consulting Ltd. is the only fully certified facilitator in Trinidad and Tobago.

We specialize in using the LEGO® SERIOUS PLAY® methodology globally either directly or through our extended network of partners in the USA, Brazil and Australia, to bridge and harvest organization's collective intelligence to:

- Devise, plan and execute Strategy
- Drive and support mergers and reorganizations
- Develop high performing teams and leaders
- Get difficult conversations on the table
- Foster innovation and fresh thinking groups
- Articulate team and organisational culture

" You can discover more about a person in an hour of play than in a year of conversation" - Plato

"Play is the highest form of research"-
Albert Einstein

About Lego® Serious Play®

LEGO® SERIOUS PLAY® is a facilitated, experiential process designed to enhance innovation and business performance.

Based on research that shows that this kind of hands-on, minds-on learning produces a deeper, more meaningful understanding of the world and its possibilities.

Benefits of using LEGO® SERIOUS PLAY®

100% Participation:

LEGO® SERIOUS PLAY® produces more concrete ideas and results, because everyone builds his or her answers before conversation and sharing begin.

100% Commitment:

The process requires every one to be actively involved, which increases the probability that all will honor the decisions and agreements after the meeting.

Faster and Better Decisions:

LEGO® SERIOUS PLAY® meetings stay on topic because the focus is on the bricks – not on the person. Allowing discussions to become very intense with solutions being created without personal conflicts.

Effective Communication:

LEGO® SERIOUS PLAY® ensures faster and better communication and understanding because it uses 3D models, metaphors and stories which are easily understood and remembered by everyone.

Creative Problem Solving:

In LEGO® SERIOUS PLAY®, the LEGO® bricks serve as a common language that all can use, regardless of education or position. This ensures that everybody's knowledge and insights are surfaced

Why is LEGO® SERIOUS PLAY® effective?

Our brains can consciously handle only about 10% capacity at any given time (Freud). LEGO® SERIOUS PLAY® leverages the fact that the hand is connected to 70-80% of our brain capacity, allowing participants to access more information than they "know" to create unique solutions.

The purpose of Lego® Serious Play® is to maximize the full potential, insight, confidence and commitment of all the people around the table.
