

Leeds Addiction Unit Training

Your organisation may require training for health and social care professionals concerned with the management of substance misuse issues. We can address your specific needs, with the location, timing and course content designed to suit your training objectives.

Tailored content

Work with us to develop a course that meets your specific requirements.

Confidential

Staff can explore issues relevant to your area of work.

Flexible

Hold the course at a convenient time for your service and spread the training over a series of sessions, days or months.

Location

Bring the course in-house or use our fully serviced training facility.

We will.....

- ♦ Support your organisation to develop a training plan and work with you to design the course content.
- ♦ Assign a member of our team to liaise with you throughout the programme.
- ♦ Provide experienced and qualified teaching staff to deliver your training.
