

wondergelTM **ULTIMATE COLLECTION**

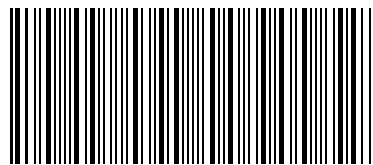

Exclusive to
MIRACLE CUSHION
Beyond your expectations

The Comfort King **The Ultimate Collection Advantage**

The Ultimate Collection, exclusive to Miracle Cushion, is the latest and most advanced development from Wondergel. An enhanced and improved gel formulation, incorporating millions of tiny micro spheres, results in some truly astonishing advantages.

- Enhanced gel formulation
- Lighter in weight and therefore more portable
- Enhanced thermal transfer – this means the cushion will be more temperature neutral – feeling cooler in the summer and warmer in the winter
- Made with the same unique gel material used in the expensive medical / wheelchair cushions by sister company Equapressure LLC
- High stretch, highly breathable cover for maximum comfort
- Uncompromised cushioning and support

Made in the USA

Why WonderGel?

Wondergel is the most advanced seat cushioning material available today. Made from an ultra-modern copolymer, Wondergel provides uniquely comfortable support while eliminating pressure points. Sit hours longer in pain relieving comfort, even on very hard surfaces.

Cushions made from traditional materials such as foam, or memory foam, create “push-back”, so that before long you experience discomfort. Long lasting Wondergel uses the ingenious principle of column buckling. As pressure increases Wondergel columns buckle distributing weight “out and away”. Comfort is enhanced and blood flow is unrestricted, eliminating uncomfortable pressure points.

Wondergel provides immediate, continuous cushioning. No need to wait for foam to heat up or conform to your body every time you change position.

The result: a truly revolutionary advance in cushioning technology that provides the ultimate in sitting comfort.
