

Integrated signage solution

**DIGITALSIGNAGESOFTWARE**

“PADS4 digital signage software, providing your audience with the right targeted information in the right place, at the right time.”

## PADS4 Signage Suite

### High-end digital signage solution

PADS4 digital signage software is a high-end digital signage solution that features an intuitive Designer for quickly creating attention grabbing presentations. The solution comes with a user-friendly Scheduler, a variety of Viewers that are tailored to your needs, and a solid Server application to manage your signage environment. PADS4 also comes with the PADS4 Agent, an extremely powerful tool to remotely monitor and manage your PADS4 eco-system.

All PADS4 applications have a Microsoft® Office user interface look and feel which significantly reduces the learning curve and increases productivity.

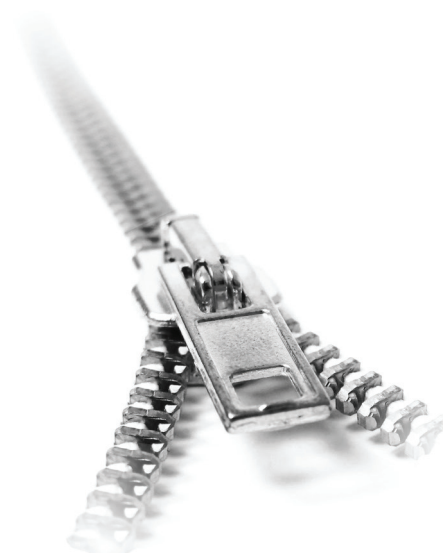

## Seamless Database Integration

### Tap into any existing workflow

A stand-out feature of PADS4 is the seamless integration with any type of database, resulting in a smooth adaption of any existing workflow. With PADS4, integrating real-time data from sources such as Microsoft Exchange, Microsoft Dynamics®, SAP, content management systems, room reservation systems, queue management, and social media is an effortless process.

Pre-defined configurations and an automatic server detection feature simplify your installation. In addition, a completely new 'engine' has been placed into the PADS system. A new SDK enables you to develop custom solutions more easily and quickly.

# Intelligent Content Management System

## Quick access to all your content

PADS4 contains the intelligent PADS Content Library System which is automatically synchronized across your entire PADS installation. Recreating existing content is no longer required with PADS4 software. You will have unlimited access to your pictures, videos and other content files, anytime, anywhere. The PADS Content Library System also guarantees that any PADS Viewer will have access to all your content.

## Add Interactivity

### Get in touch with your audience

Adding interactivity to your presentations has never been easier. This engagement can be based on several external triggers, such as touch screens, RFID, Barcode, QR Code, face recognition and many others.

## Effective And Profitable

### Communicate with minimum effort

Choose PADS4 if you're looking for a cost effective digital signage solution to inform, entertain and entice your audience. It enables you to deploy professional and profitable installations of any size.

## Why PADS4?

- *Seamless integration with your existing workflow*
- *Reliable and stable, proven track record in mission critical environments*
- *Fully scalable to grow with your needs, future-proof investment*
