

CHARITY GOLF GUNS

I have been referred to you by a previous supporter/participant in one of your past charity events.

I would like to introduce **CHARITY GOLF GUNS**:

Are you tired or bored of the same old challenges at every **charity golf tournament**? How about adding an alternative to your typical golf tournament **fundraising** efforts. I provide an excitement by providing an **AR-15 golf ball launcher**.

Mulligans, longest drive, putting contests, Hole in One for a car? Yeah, you've been there and done that! Now it is time to add a new challenge? How about a prize for closest to the 400 yard target?

Set up: Preferably a par 4 or par 5 hole with a straight line of sight out to around 400-yards and away from any obstacles if possible. I give your registered players making a donation, the opportunity to use the rifle to launch their golf ball approximately **375-400 yards** in place of driving off a tee.

We have several package options to choose from that are guaranteed to make your next golf event a memorable one! Your players will be talking about this one all day long! It is **completely safe, fun** and an **experience that all ages can participate in**.

Packages available:

Option 1: (\$250 fee) \$5 or \$10 per player/per shot (player pays to participate)(player provides a ball)

Option 2: (\$500 fee -sponsor level) \$5 or \$10 per player/per shot and I provide all players a logo ball) **100% profit to the charity**

Option 3: (\$500 fee -sponsor level) player participation is included in mulligan package price. **100% profit to the charity**

Option 4: Custom package design based upon charity requests

Approval: I request that the tournament director and the golf course clubhouse manager both acknowledge that they have approved of the use of the AR-15 golf ball launcher and are aware of the noise associated with it, and assume all liabilities beyond the teebox as they do for any other promotional event occurring on their course. (le- longest drive, hole in one, involving a participant teeing off.)

Collecting funds: I provide two options for collecting funds. The preferred method is to have players make a donation at the selected hole. The alternative is to accept credit cards via square register at the hole for players who do not have cash but would like to make a donation anyways. Cash, tickets and square totals are turned in after the final foursome fires away!

Below is a video link to a local radio personality participating in a recent charity event.
