PIERREPOINT

2012 Pinot Noir

The Henty Wine Region in far South Western Victoria is renowned for its unique cool climate quality wines. Pierrepont Pinot Noir has become a highly acclaimed wine since its inaugural 2003 vintage.

Mount Pierrepont Estate is a small family owned vineyard located on the foothills of Mount Pierrepont, west of the Tarrington township, at an altitude of 200m and having an average rainfall of 700mm. The predominantly red buckshot soils of the vineyard are derived from ancient volcanic basalt which is rich in minerals.

The Pinot Noir vines (2ha) were planted in 1998. Pierrepont Pinot Noir grape yields are typically 2.5 tonnes per hectare. The grapes are hand picked during mid autumn and following fermentation the wine is undisturbed in French oak barriques for 12 months prior to bottling, allowing the natural intense flavours and aromas to come to the fore.
