## ➤ Testimonials

*"I had the opportunity to work with Jessa during efforts to hire additional developers for my team in June 2012. After a short conversation about the position and technical needs, Jessa was able to quickly deliver back-to-back "rock star" candidates. Both candidates were ultimately hired as full-time employees. It is not very often that you find one of these candidates, but to have the first two resumes be such great fits is simply amazing. Fortunately, with Jessa's help, I was able to get back to what I care most about - working with my team and building software. I will continue to utilize her skills as a recruiter in the future."* July 21 2012, Adam Mogan, Lead Developer at Five9 Inc.
