

# Platinum Kleen

## Specialist Glass Cleaner

*Platinum Kleen is a revolutionary new product combining safety and effectiveness in one easy system.*

*Safely cleans shower screens when simply nothing else works, glass panels on fencing, marine glass, in fact any glass affected by scale & scum. Also cleans brass, copper & silver, ceramic tiles, barrier glass & stainless steel.*

### Directions:

*As a first rule, we believe that this product will work efficiently on all surfaces, however due to the wide variety of blends and glass mixes, please try on an inconspicuous area first. Wet a non-scratch scourer, (these are normally white in colour), sprinkle some powder on the scourer and apply to the surface to be cleaned. The glass or metal surface should start to feel smooth almost straight away, however for problem stains, add more powder and make a stiffer paste.*

### Safety:

*While Platinum Kleen is intrinsically safe, use good hygiene practices, wash hands after use. If prolonged exposure is anticipated, wear gloves, and if the task is generating dust, wear a dust mask.*
