

DENTAL CAPITAL, LLC

Dental Capital, LLC, through its association with **BND Commercial**, has developed and refined a system that offers financial services to the dental profession.

Our new program provides the opportunity for doctors to sell the building they own while continuing to occupy it as before under a lease from Dental Capital, LLC. This program can free up significant amounts of capital that would otherwise be locked into real estate.

Who Benefits?

Any dental or medical practitioner wanting to pre-plan for retirement with a solid exit strategy while freeing up cash for other uses now.

How The Program Works:

- Sell your real estate to Dental Capital now
- Occupy it as before under a lease from Dental Capital
- Retire or sell your practice when you are ready without the hassle of dealing with the real estate

Properties will be assessed for qualification to the program on an individual basis. All terms are negotiated.
