Have you wonder why dogs stare at their water bowl before drinking? If they have a choice, all dogs prefer running water and they know that running water tastes great and has more oxygen! A perfect way for your dog to drink more water. Dog H2O is designed with an easy change 2 stage filter with activated carbon & wool, raised & large drinking area, built-in surface skimmer, a 6L (6.3 quart) reservoir, high quality water pump and bonus Dental Care feature. Dog H2O is proud to have worked with PDD Design of the UK and AA Aquarium, manufacturer of millions of high quality water pumps and aquariums. Let's upgrade to a Dog H2O today!

Warning: A protective tube for the power cable is included, check regularly to ensure your pet is NOT chewing on this. Replace when damaged.

Warning: Stop using Dental Care if your dog experiences vomiting, diarrhea or signs of discomfort; consult your veterinarian professional.
